S. alata "Purple Throat" , 40 cm completely red inside, good veined, outside mostly green, sometimes red, very large	14,--
S. alata "Purple Throat" , 40 cm completely red inside, strong veined, upper part of pitcher very red	14,--
S. alata "Red Lid Heavy Veins" , Perry Co, Miss.,PW A 19, 40 cm robust colorfull pitchers	16,--
S. alata "Red Lid" , DeSoto, Stone Co, MK A 43 tall bulbous pitchers	16,--
S. alata "Red Lid" , Harrison Co., Miss., MK A 17 red lid, bulbous pitchers	16,--
S. alata "Red Skin" , 30-40 cm, completely dark red pitchers, inside and outside showing a bit pubescence	16,--
S. alata "Tall Bulbous Pitchers" , MK A 1 very large pitchers	14,--
S. alata "Tall Yellow pitchers" , 40 cm green veined pubescent pitchers turning red in autumn	14,--
S. alata "Upright Lid" dark pitchers with the lid standing upright	14,--
S. alata "Yellow, Bulbous Pitchers" , Jasper,Co, 50 cm bright yellow pitchers with a big head	18,--
S. alata Red Lid, P+M , 30-40 cm tall yellow, veined pitchers	14,--
S. alata var. heterophylla , Washington Co., adult plants rare all green form, very pubescent	26,--
S. alata var. heterophylla , Washington Co., seedgrown plants, 10-12 cm rare all green form, very pubescent	18,--
S. alata, Citronelle, Alabama yellow pitchers with fine red veins	14,--
S. alata, Desoto, Miss , 30 cm, seed grown from wild seed, pubescent plants mixed with non pubescent ones, different colors	12,--
S. alata, Robertson Co. , Texas, 30-40 cm bright yellow pitchers with wide opening	14,--
Sarracenia flava	
S. flava var atropurpurea , Blackwater State Forest, ex J. Kutzer, 30-40 cm dark red pitchers	18,--
S. flava var. atropurpurea "Small Lid" RvL FI 105 dark red flava clone	18,--
S. flava var. atropurpurea MK F27a , Blackwater State Forest, FL, 40 cm completely dark red pitchers, taller pitchers than MK 27c	18,--
S. flava var. atropurpurea MK F27b , Blackwater State Forest, FL, 40 cm completely dark red pitchers	18,--
S. flava var. atropurpurea MK F27c , Blackwater State Forest, FL, 40 cm completely dark red pitchers, very nice and rare form	18,--
S. flava var. atropurpurea PW F03 , Blackwater State Forest, FL, 40 cm completely dark red pitchers, very nice and rare form	18,--
S. flava var. atropurpurea , 30-40 cm strong veined, very dark red plant, pitchers turn completely red in summer	16,--
S. flava var. atropurpurea , CK A1 completely dark red pitchers with green interieur, similar to clone Waccamaw	28,--

S. flava var. atropurpurea , Cook's Bajou, Bay Co., 30-40 cm seems to have some intogression, because of its orange flower	18,--
S. flava var. atropurpurea , ex Marston Exotics, MK F 174 Adrian Slacks selected clone	20,--
S. flava var. atropurpurea , ex. J. Betz, KU 14 completely dark red pitchers	16,--
S. flava var. atropurpurea , selection CK dark red pitchers	20,--
S. flava var. atropurpurea , Wewahitchka FL., ex J. Ainsworth, MK F 56 all red pitchers	20,--
S. flava var. cuprea dark red lids, some veins	16,--
S. flava var. cuprea "Orange Tube" , Green Swamp, NC. unusual colored plant	16,--
S. flava var. cuprea "Tall Slender Pitchers" , ex. Botanical Garden, Liberec very tall pitchers	16,--
S. flava var. cuprea (Coppertop x Ornata) ex M. Erbacher strong veined and good copper lid, very nice clone	14,--
S. flava var. cuprea (Coppertop) very heavy veined, large pitchers with strong veins, good copper lid in spring	14,--
S. flava var. cuprea (Coppertop) CT2 very large, veined, with a red line in the neck, dark copper lid in spring	16,--
S. flava var. cuprea (flava x cuprea), iP SF 63, 40 cm, hardy very good cuprea clone, extremely dark top	16,--
S. flava var. cuprea MK F8 , 30 cm all green plant, with copper lid	16,--
S. flava var. cuprea veined (Coppertop Veined), ex Helmut Kibellis very nice veined coppertop	16,--
S. flava var. cuprea , Apalachicola, National Forest, iP F 88 ex Phil Wilson	16,--
S. flava var. cuprea , ex. Erbacher very large lids with a red splotch in the neck	20,--
S. flava var. cuprea , ex. Kutzer, KU 117 tall plant, copper lid	16,--
S. flava var. cuprea , ex. M. Soper, KU 22 very dark lid	16,--
S. flava var. cuprea, Exum North Carolina, MK F 131a good copper lid	16,--
S. flava var. cuprea, North Carolina, MK F 10 dark lids, Dave Richardson clone	18,--
S. flava var. cuprea, North Carolina, MK F 90 very dark lids, one of the best cupreas	26,--
S. flava var. cuprea , Santee Costal Reserve, South Carolina	16,--
S. flava var. flava "Holley x Milton" , SL F 56 large pitchers with some veining	14,--
S. flava var. flava "Long Neck" elegant long neck, nice veines, good outside grower	14,--
S. flava var. flava "Suspicion" (antho free) all green form of flava	23,--
S. flava var. flava "Yellow Pitchers Fine Red Veining" , Saphony Creek, Vir., PW F 64, 30-40 cm bright yellow pitchers with some red veines	16,--
S. flava var. flava Giant Form , North Carolina, 40 cm, hardy very large form, robust pitchers	16,--
S. flava var. flava , 40 cm, hardy typical form, grown from seed	11,--
S. flava var. flava, Allanton, Florida, 40 cm good colored clone	14,--
S. flava var. flava , Dinwiddie, Virginia, MK F 6, 40 cm large pitcher opening and lid, very nice	14,--
S. flava var. flava , F 87 SL, near Shallote, Brunswick Co, NC, very green tall pitchers	16,--
S. flava var. flava, Giant 120+ very large pitching flava clone	16,--

S. flava var. flava, Green Swamp, NC., 40 cm large pitchers	14,--
S. flava var. flava, Honeysuckle Road, Harleyville, Dorchester Co clone 3, typical strong veined flava clone	14,--
S. flava var. flava, Honeysuckle Road, Harleyville, Dorchester Co clone 2, typical veined flava clone	14,--
S. flava var. flava, North Carolina, MK F 32 very large form	18,--
S. flava var. flava, Pender Co., Hampstead, NC., PW F 20, 30-40 cm	16,--
S. flava var. maxima Green Veines, SL F 22 green pitchers with green veines, maybe a good partner for hybrids	16,--
S. flava cv. Maxima Adrian Slacks cultivar	16,--
S. flava var. maxima (Maxima Green), 40 cm, hardy completely green, no veins	14,--
S. flava var. maxima Giant form, Honeysuckle Road, Harleyville, Dorchester Co, 40 cm, hardy very large pitchers, completely green, one of the best maximas !	18,--
S. flava var. maxima, 40 cm, Green Swamp, N.C ex Jonathan Newman	14,--
S. flava var. maxima, 40 cm, MK F 1 very large pitchers	14,--
S. flava var. maxima, Shand's Bog, Virginia, PW F 59, 30-40 cm, hardy wide open pitchers	16,--
S. flava var. ornata needle leaf phyllodia	14,--
S. flava var. ornata (x cuprea) tall plant, very good veined, own selected plant	16,--
S. flava var. ornata ex M. Brause strong veined flava with a large lid	16,--
S. flava var. ornata ex Potterton and Martin, 40 cm very tall pitchers with an nice venation	16,--
S. flava var. ornata, Apalachicola, MK F 37 heavy veined, giant	18,--
S. flava var. ornata, Bay Co., Sandy Creek compact good veined pitchers	16,--
S. flava var. ornata, Bay Co., Sandy Creek, 2nd site short, compact good veined pitchers, large lid	16,--
S. flava var. ornata, ex H. Cooper short pitchers, very heavy veined	16,--
S. flava var. ornata, Miramar, Broward Co., FL strong red veined pitchers, red in throat over summer	20,--
S. flava var. ornata, MK F 88 one of the best flavas, my favorite, strong veined with solid red throat	26,--
S. flava var. ornata, MK F 95, Wewahitchka, Gulf, Co, Florida, 40 cm heavy veined, large lid	16,--
S. flava var. ornata, New Bern, Craven Co., SL F 130 good veined variant	16,--
S. flava var. ornata, Sandy Creek Bay Co., ex Derek Cl. Bate short, but very good veined pitchers	14,--
S. flava var. ornata, Wakulla Co, FL compact growing flava form with a lot of red inside throat	16,--
S. flava var. ornata "Giant", 30-40 cm very large pitchers with short lid, strong veined	16,--
S. flava var. ornata "Red Form", Holley, Florida, Mk F 67 big lid, colorfull form	16,--
S. flava var. ornata "Round Lid"	14,--
S. flava var. ornata "Super Ornata", 30-40 cm, hardy very strong veins, stocky plant, wide lid, very showy plant, but possibly a hybrid	16,--
S. flava var. ornata "Very Tall Pitchers", 30-40 cm tall veined pitchers	16,--
S. flava var. ornata CK 2, hardy needle leaf phyllodia, very nice veined	14,--

S. flava var. ornata ex. Phil Wilson, 40 cm strong veined pitchers	16,--
S. flava var. ornata , 40 cm short lid, course venation	14,--
S. flava var. ornata , seedgrown plants seedlings from selected parents	12,--
S. flava var. ornata , selected CK selected ornata good veined	14,--
S. flava var. rubricorpora "Chris Heath Clone" , 40 cm very red pitchers with strong veins	16,--
S. flava var. rubricorpora Giant , MK F 20, Sumatra Florida dark red, tall pitchers and lid, ex J. Ainsworth F 37	18,--
S. flava var. rubricorpora Giant , MK F 21, Sumatra Florida dark red, tall pitchers and lid, ex J. Ainsworth F 42	18,--
S. flava var. rubricorpora MK F 39 , Wewahitchka, Florida starts off like ornata and reddens with age, strong patch	18,--
S. flava var. rubricorpora MK F 45, Milton Florida very red pitchers with big lid, purple tube	16,--
S. flava var. rubricorpora MK F 89 , North Carolina red tube, from North Carolina	20,--
S. flava var. rubricorpora , ex. Alan Hindle dark red pitchers	18,--
S. flava var. rubricorpora "Burgundy" , MK F 26 Slack's clone, very good red pitchers	18,--
S. flava var. rubricorpora "Claret" MK F 25c Slack's famous clone	18,--
S. flava var. rubricorpora F3, Apalachicola FL very huge pitchers with a heavy red spot in the neck, very good color, green veined lid	16,--
S. flava var. rubricorpora MK F 47 , 30 cm very red pitchers with strong veins getting red in summer, sometimes sold as var. ornata	16,--
S. flava var. rubricorpora RCP1, Apalachicola, FL very nice clone, pitchers completely dark red in summer	18,--
S. flava var. rubricorpora , Apalachicola, ex. Alan Hindle, MK F 19 red tube	16,--
S. flava var. rubricorpora , Apalachicola, MK F 105 red tube clone from Alan Hindle	16,--
S. flava var. rubricorpora , clone G, CK tall pitchers with a red splotch	16,--
S. flava var. rubricorpora , clone H, CK very dark red colored pitchers	16,--
S. flava var. rubricorpora, ex Dennis Baldson robust dark red pitchers	20,--
S. flava var. rubricorpora, ex Mike Brooks red tube getting very dark red in Summer	22,--
S. flava var. rubricorpora , ex. Dave Richardson, MK F 126 purple maroon tube	20,--
S. flava var. rubricorpora , ex. R.v.L. red all over	16,--
S. flava var. rubricorpora , F 50 SL giant form, selected by Stefan Lenssen	16,--
S. flava var. rubricorpora, Giant form, ex Carow , Apalachicola, FL, 40 cm very tall dark red pitchers, no blotch in the neck	18,--
S. flava var. rubricorpora , Holley, FL, MK F 57, 40 cm very red with red throat, wide lid	16,--
S. flava var. rubricorpora , Sumatra, Apalachicola FL, 40 cm, seedgrown typical red tube, different clones in stock	14,--
S. flava var. ruegelii, anthocyan free, Telogia Fl, 30 cm all green form of ruegelii	24,--
S. flava var. ruegelii , ex. Ruedi Fürst, 30-40 cm very nice, large ruegelii clone	20,--
S. flava var. ruegelii, Milton, MK F 49 , 40 cm very robust, large pitchers	18,--
S. flava var. ruegelii, MK F 17, Milton Florida , 40 cm copper tinged in early growth	16,--

S. flava var. ruegelii, MK F 53, Clone 6, Milton FI very robust typical form of ruegelii, very nice	18,--
S. flava var. ruegelii, near Colombia relic plant, from fall line	18,--
S. flava var. ruegelii, Sumatra Fl. , ex wild seed all different clones, grown from wild collected seed, very large form	14,--
S. flava var. ruegelii "Giant" ex Plantarara, 40 cm, hardy very large clone, typical ruegelii form	16,--
S. flava var. ruegelii, 40 cm, hardy very large clone, typical form	16,--
S. flava var. ruegelii, Giant selection CK #49 very large pitchers, selected by myself	18,--
S. flava var. ruegelii, selection CK very tall pitchers with a big nectar roll	20,--
S. flava f. viridescens (heterophylla), near Shallote, Brunswick Co., NC, 30-40 cm completely green form, very tall pitchers	22,--
Sarracenia leucophylla	
S. leucophylla "Alba" very white tops, clear white tops with some green veins, random choice from different clones	24,--
S. leucophylla "Alba" almost clear white tops with some thin red veins, red flower, random choice from different clones	20,--
S. leucophylla "Alba", seedgrown plants, 25-30 cm very white pitchers with some green,	18,--
S. leucophylla "Ben´s Bog", Baldwin Co., iP L 19 very tall pitchers with white top	18,--
S. leucophylla "Bonbon" own selection , 30 -40 cm dark pink pitchers in autumn	20,--
S. leucophylla "Giant Autumn Pitchers", own selection very large pink/red and white pitchers, wide opening, colorful and nice	18,--
S. leucophylla "Giant Autumn Pitchers", own selection very large pink/red and white pitchers, wide opening, colorful and nice	20,--
S. leucophylla "Green/White", ex R. Schoch extremely large pitchers, with a high proportion of white	18,--
S. leucophylla "Helmut´s Delight", seedgrown plants seed grown plants, very close to the original plant	18,--
S. leucophylla "Pubescent Pink", Perdido, Al., 40 cm nice pink colored pitchers, covered with hairs	14,--
S. leucophylla "Purple and White Giant Form", near Altha, FL., MK L 19 very tall, strongly contrasted pitchers	24,--
S. leucophylla "Purple and White", Dear Park Al., MK L 12a giant autumn pitchers	18,--
S. leucophylla "Red SL 1", 30-40 cm pink red autumn pitchers, selected by Stephan Lenssen	16,--
S. leucophylla "Red SL 2", 30-40 cm second clone of S. Lenssens red selections	16,--
S. leucophylla "Red Veines/White Top MK L 15", Citronelle AL very white extremely tall pitchers, with thin red veins	18,--
S. leucophylla "Red/White" A1, own selection, 30-40 cm robust autumn pitchers with a big lip	18,--
S. leucophylla "Red/White", ex Chaplin dark red, robust stocky pitchers	16,--
S. leucophylla "Red/White", ex M.Stöckl, very colorful clone	16,--
S. leucophylla "Red/White", ex Potterton & Martin tall pitchers	16,--
S. leucophylla "Red/White", MK L 30, 40 cm nice clone, coming from Viv Topham	18,--
S. leucophylla "Red/White", New Semiole, Fl., PW L 33 red/white, very fat pitchers	16,--
S. leucophylla "Redneck", ex Dr. König, Germany large pitchers, turning red in autumn	18,--
S. leucophylla "Schnell´s Ghost", 40 cm seedgrown plants, typical white top with green veins, all different clones	16,--

S. leucophylla "Schnell's Ghost" , 40-50 cm, divisions white top with green veins, a blush of pink in autumn	20,--
S. leucophylla "Short stocky Pitchers" , L 7 J. Betz, 30 cm very nice colorful, stocky pitchers, really nice clone	14,--
S. leucophylla "Tarnok" typical leucophylla with unusual, filled double flower	18,--
S. leucophylla "Typical Form" , 40-50 cm, hardy typical form, from seed, mostly red/white	12,--
S. leucophylla "White Top" , ex Sryba very large white pitchers, different clones available	26,--
S. leucophylla "White Top" , possibly yellow flower tall, very white pitchers with no red in	16,--
S. leucophylla "White/Green", SL L 10 extremely large pitchers, with a high proportion of white	16,--
S. leucophylla "Wide Open Pitchers" unusual form, nearly no peristome, maybe a hybrid	16,--
S. leucophylla "Yellow Flower" , 40 cm white top with green veins, a blush of pink in autumn	16,--
S. leucophylla "Yellow Flower/Wavy Lid", PW , 40 cm tall white pitchers with a pink flush in autumn	16,--
S. leucophylla "10/4 SL Blackwater State Forest"	18,--
S. leucophylla "9/3 SL Perdido Alabama"	18,--
S. leucophylla "Green/White" bright pitchers with red veins	16,--
S. leucophylla "Large Pitchers/Red Mouth" own selection	18,--
S. leucophylla "Pink and Purple Pitcher" , ex Cedric Azais virgous and tall plant	18,--
S. leucophylla "Pubescent, completely covered with white hairs" stocky pitchers with a very strong pubescence	18,--
S. leucophylla "Red Mouth" , own selection red/white with a red lip	16,--
S. leucophylla "Red"	16,--
S. leucophylla "Red" , MK L 29 tall red pitchers	16,--
S. leucophylla "Red/White" , ex Stan Lampard robust pitchers	14,--
S. leucophylla "Titan" , ex Botanique, USA giant traps, original clone	30,--
S. leucophylla "Very White/Pink Lip" , Perdido, Al., PW L 11	16,--
S. leucophylla 10/3 CK , Blackwater State reserve own selection with large, very good contrasted pitchers	24,--
S. leucophylla A2, White/Red , 40 cm purple / white, very large colorful pitchers	18,--
S. leucophylla A3 , own selection, 40 cm robust bright pitchers	16,--
S. leucophylla var. viridescens (heterophylla) , 40 cm anthocyan free form, yellow flower, gets very huge	18,--
S. leucophylla var. viridescens (heterophylla) , 20-30 cm anthocyan free form, yellow flower, gets very huge	14,--
S. leucophylla X1 , own selection, white/red pitcher	18,--
S. leucophylla, "Giant White Pitchers" , Santa Rosa Co extremely large pitchers with a wide opening	24,--
S. leucophylla , Baldwin Co., Al, L 25	18,--
S. leucophylla , Baldwin Co., Al, MK L 20 very tall pitchers	20,--
S. leucophylla, Citronelle Alabama , 40 cm different clones grown from wild seed #12	14,--
S. leucophylla, Citronelle Alabama , 50 cm giant white pitchers, ex St. McPershon	18,--
S. leucophylla , Conecuh Forest, Alabama purple and white robust pitchers	18,--

S. leucophylla , Dear Park, Alabama, 40 cm robust red/white pitchers	18,--
S. leucophylla , Eglin Airforce Base, 40 cm seedgrown from wild seed, mostly white/green with some red	16,--
S. leucophylla, ex M. Sryba, Cerv Duris x Yellow River very nice robust red/white pitchers	16,--
S. leucophylla , Garcon Point very heavy pitchers, with a pouty lip	24,--
S. leucophylla , Gas Station, Perdido Al.	16,--
S. leucophylla , Hurricane Creek, seedgrown plants 25-30 cm white/green veined pitchers, looking promising	18,--
S. leucophylla , Mobile Co., 40 cm very large autumn pitchers, red with some green	16,--
S. leucophylla , Paradise Bay, ex. J. Newman, 30-40 cm red/white tall pitchers	14,--
S. leucophylla , Splinter Hills Bog, 40 cm seed grown from wild seed, most red/white, many mostly very colorful clones	16,--
S. leucophylla , Splinter Hills Bog, Clone 8/3 SL, 40 cm pink/red pitchers, selected from wild seed	20,--
S. leucophylla , Sumter Co., near Americus, ex wild seed white and red pitchers, all different clones	16,--
S. leucophylla, Walton Co. x Liberty Bristol, ex M. Sryba colourful, tall pitchers	16,--
Sarracenia minor	
S. minor "Large Form" , Brunswick Co, 30 cm very large form, coming from Florida	14,--
S. minor "Typical" , 20-30 cm, hardy	12,--
S. minor , Benhill GA., Fitzgerald, ex C. Dietz, 30 cm typical brownish pitchers, stocky plant	14,--
S. minor , Benhill Georgia, Fitzgerald x minor All Green, 20-30 cm nice colorful plants, if flower is self pollinated, all green plants will be come up in next generation	12,--
S. minor , Francis Marion National Park, Charleston Co, South Carolina, 20-25 cm seedgrown plants from wild seed, different clones	14,--
S. minor , Brantley Co., Georgia, 20-30 cm, ex wild seed typical form, different clones from seed	14,--
S. minor , Waycross Georgia, MK M 3, typical minor form	14,--
S. minor var. minor f. viridescens, Clone 1, MK M 31A , Phil Sheridan crossing all green form of minor, green/yellow pitchers, resulting from a backcross with minor var. okee	22,--
S. minor var. minor f. viridescens, Clone 2, MK M 31B , Phil Sheridan crossing all green form of minor, resulting from a backcross with minor var. okee	22,--
S. minor var. minor f. viridescens , seedgrown plants 20 cm cross between clone 1 and 2	16,--
S. minor var. okefenokeensis , Fitzgerald, Ben Hill Co, Georgia, SL M 05 tall slender pitchers	20,--
S. minor var. okefenokeensis seedgrown plants from the famous Reading university clone 25-30cm	12,--
S. minor var. okefenokeensis (Okefenokee Giant) , 30-40 cm very tall green pitchers; can reach 1 m	16,--
S. minor var. okefenokeensis (Okefenokee Giant) , 40 cm very tall and extremely robust pitchers; can reach 1 m and even more	28,--
S. minor var. okefenokeensis Brown Head , 30-40 cm very tall brown headed pitchers, clone from Dr. König Germany	18,--
S. minor var. okefenokeensis , Chesser Island, Kp 25/2 or Kp25/1 very tall pitchers, selected from wild seed	18,--
S. minor var. okefenokeensis , Georgia seedgrown plants from a very fat, brown headed pitching okee form, promising !	12,--

Sarracenia oreophila	
S. oreophila "Giant" , 40 cm very fat pitchers up to 60 cm	16,--
S. oreophila "Heavy Veined #2" , SL O 4 selected clone from Stefan Lenssen	14,--
S. oreophila "Heavy Veined" , Sand Mountain, Alabama, 40 cm, hardy very tall pitchers, many veins	14,--
S. oreophila "Long Lasting Pitchers" , 40 cm Georgia, Phil Wilson PW OR 04/2	14,--
S. oreophila "Pink Lip" , SL O 09 selected clone from Stefan Lenssen	14,--
S. oreophila "Red Throat" , 40 cm shows very red coloration inside the throat	14,--
S. oreophila "Slim Phyllodia" , MK O 15 , Clay Co. NC, 40 cm unusual clone with short narrow phyllodia	14,--
S. oreophila "Tall Slender Pitchers" , 40 cm unusual form with slender, flava like pitchers (no hybrid)	14,--
S. oreophila Typical form ex Mazrimas, 40cm	14,--
S. oreophila Typical, 40 cm grows good in peat bogs	12,--
S. oreophila , Boaz Pond, Marshall Co, 40 cm tall pitchers, up to 60 cm	16,--
S. oreophila , Cherokee Co. SI O 14/3 selected be Stefan Lenssen	14,--
S. oreophila , Dikalb, Alabama	14,--
S. oreophila , ex Botanical Garden , Prag tall veined pitchers with a red mouth	14,--
Sarracenia psittacina	
S. psittacina "Black Flower" really dark red plants and dark red flowers	16,--
S. psittacina "Giant" , Liberty Co., Sumatra, 12-15 cm big growing plants, slender pitchers, single clone	14,--
S. psittacina "Neon !" , all green plant, own cross bright yellow/green color, cross between all green Wewahitchka, Co x Baldwin, Co,	22,--
S. psittacina "Orange Flower" , 12-15 cm colorful plant with orange flower	16,--
S. psittacina "Red Plant" , 12-14 cm dark red, seedgrown plants	14,--
S. psittacina "Red/White" , 12 cm red pitchers with white windows	14,--
S. psittacina "Yellow Flower" , 10-15 cm glossy plant, very colorful, good size	16,--
S. psittacina , Blackwater State forest , Bear Lake, Fl. # 20, 10- 12 cm wild collected seed, Nr. 20, all different clones	14,--
S. psittacina , Blackwater State forest , Fl, 12-15 cm wild collected seed, Nr. 21, all different clones	14,--
S. psittacina , DeSoto NF, near Biloxi rt.15, Harrison Co colorful, slender pitchers	14,--
S. psittacina , Wewahitchka Fl, seedgrown 10cm	14,--
S. psittacina var. heterophylla , Wewahitchka , Fl, 10-12 cm, seedgrown anthocyan free form, yellow flower	12,--
S. psittacina var. heterophylla , Wewahitchka , Fl , 12-15 cm anthocyan free form, yellow flower	16,--
S. psittacina var okefenokeensis , "Big Reddish Plants" , Sandy Creek Road, Bay Co., Fl colorful big rosettes	16,--

S. psittacina var. okefenokeensis "Big Globose Traps" , near Citronelle, Washington Co., Al, seedgrown wild collected seeds, dark red traps, nearly golf ball size, all different clones 10cm	12,--
S. psittacina var. okefenokeensis "Okee Giant" , seedgrown plants, 10-12 cm very big colorful rosettes	14,--
S. psittacina var. okefenokeensis "Red/White Massive Heads #15", Citronella, Alabama , very large with big heads	16,--
S. psittacina var. okefenokeensis f. viridescens , Sandy Creek Road, Bay Co, Florida 10-12 cm seedgrown plants, all green giant form, can get 35 cm diameter easily	22,--
S. psittacina var. okefenokeensis, "Red/White" Splinter , Baldwin Co., Al, SL P 17/1 very large clone, selected by Stefan Lenssen	18,--
S. psittacina var. okefenokeensis , Citronelle Alabama, SL P 15/1 big, massive heads, selected by Stefan Lenssen	18,--
S. psittacina var. okefenokeensis, Clone 1 , 1985 imported from Lee's botanical garden, Miami extremely large growing rosettes, the biggest ones in my collection, up to 50 cm	28,--
S. psittacina var. okefenokeensis, Clone 2 , 1985 imported from Lee's botanical garden, Miami extremely large growing rosettes, the biggest ones in my collection, up to 50 cm	28,--
S. psittacina var. okefenokeensis, Clone 3 , 1985 imported from Lee's botanical garden, Miami extremely large growing rosettes, the biggest ones in my collection, up to 50 cm	28,--
S. psittacina var. okefenokeensis, DeSoto Miss. #18 red plant, heavy fenestrated	12,--
S. psittacina var. okefenokeensis , Liberty Co #13/1 own selection Stunning plant, dark red pitchers forming giant rosettes	28,--
S. psittacina var. okefenokeensis "Pale Green" , very big, less colorful plants with some red, selected from seedgrown plants	14,--
Sarracenia purpurea	
S. purpurea ssp. purpurea , 8-10 cm hardy bog plant, forms dark red colored clumps	10,--
S. purpurea ssp. purpurea , 20-25 cm very large plants, hardy bog plant	15,--
S. purpurea ssp. purpurea , Bongor Maine, 12-14 cm, hardy grows in a bog close to the Canadian border	14,--
S. purpurea ssp. purpurea , Tanersville, Monroe Co, Pennsylvania, 10-12 cm dark red very good contrasted and veined plants	14,--
S. purpurea ssp. purpurea "Extremely dense form" , 10-12cm, hardy forms clusters of medium sized, brownish pitchers	14,--
S. purpurea ssp. purpurea "Nearly Veinless Plant" , 10-12 cm, Moss Lake, Grey Co, Ontario, Canada pale yellow plant, slow grower	16,--
S. purpurea ssp. purpurea "Switzerland" , 12-14 cm hardy, forms very big clumps of pitchers up to 60 cm wide	14,--
S. purpurea ssp. purpurea "Veinless Plant" , seedgrown, 12-14 cm pale yellow plants, completely veinless even in full sun, bright orange in winter	24,--
S. purpurea ssp. purpurea f. heterophylla , 10-12 cm anthocyan free plants, hardy bog plant	14,--
S. purpurea ssp. purpurea var. riplicola , Dorcas Bay, Bruce Co, Ontario, 12-14cm grows on limestone ground at the natural location	14,--
S. purpurea ssp. venosa dark red veined plants with wavy lids	16,--
S. purpurea ssp. venosa , Sheely Pond, Edmond, Lexington Co, 10-12 cm relic plants, fall line	14,--
S. purpurea ssp. venosa "Buddha Belly seedgrown" , 8-10 cm seedgrown plants from selfed Buddha Belly, all red globose form, very close to the motherplant !	16,--
S. purpurea ssp. venosa "Ruffled Lid" , 12-14cm seedgrown plants, very red form (ww)	14,--
S. purpurea ssp. venosa var. pallidiflora (antho free) , 10-12 cm the true anthocyan free form of P. venosa, very good grower	14,--
S. purpurea ssp. venosa var. pallidiflora (antho free) , 15-20 cm the true anthocyan free form of P. venosa, very good grower	16,--
S. purpurea ssp. venosa , 10-12 cm seedgrown plants, very different individuums	12,--
S. purpurea ssp. venosa , Carteret Co, North Carolina, 10-14 cm seedgrown plants from wild seeds	14,--
S. purpurea ssp. venosa , Old Dock, Columbus Co., 10-12 cm seedgrown plants, very red pitchers	14,--

S. purpurea ssp. venosa , Reedy Creek, Caroline Co., Virginia, 10-12 cm seedgrown plants, wavy lids and fantastic color, one of my favorites !	16,--
S. purpurea var venosa "Minor Black" , ex T. Carow compact growing, very dark red form with white hairs inside the pitcher	16,--
S. purpurea ssp. venosa "All Red" North of Supply (Green Swamp) N.C. 10cm seedgrown plants, very red form	14,--
S. purpurea ssp. venosa , Green Swamp NC	12,--
S. purpurea ssp. venosa var. burkei "Chipola Giant" , 10 cm completely red plants, up to 40 cm diameter	14,--
S. purpurea ssp. venosa var. burkei "Completely Veinless Plants" , seedgrown plants 15-20 cm no veins at all, gets completely orange in winter, similar to Melissa Mazur Clone	28,--
S. purpurea ssp. venosa var. burkei "Completely Veinless Plants" , seedgrown plants 10 cm no veins at all, gets completely orange in winter, similar to Melissa Mazur Clone	14,--
S. purpurea ssp. venosa var. burkei f. luteola , 10-12 cm all green burkei, big globose traps, seedgrown plants	16,--
S. purpurea ssp. venosa var. burkei f. luteola , 15-18 cm all green burkei, big globose traps, divisions	20,--
S. purpurea ssp. venosa var. burkei , 10-12 cm good grower, unusual colored flower	10,--
S. purpurea ssp. venosa var. burkei , Walton Co., Fl, 10-12 cm seedgrown plants, all different clones	14,--
S. purpurea ssp. venosa var. montana , Jackson Co, 10-12 cm rare location, beautiful colored plants	26,--
S. purpurea ssp. venosa var. montana , Jackson Co, 8-10 cm rare location, beautiful colored plants	18,--
S. purpurea ssp. venosa var. montana , Oakey Mountains, Rabun Co., Georgia, 10-15 cm very colorful green/deep red veined pitchers	15,--
S. purpurea ssp. venosa var. montana, Mclures Bog , Henderson Co, 10-14 cm very colorful green/deep red veined pitchers	20,--
S. purpurea ssp. venosa var. montana, Transylvania Co , 10-12 cm very colorful green/deep red veined pitchers	18,--
S. purpurea ssp. venosa var. burkei f. luteola x venosa f. yellow flower , seedgrown 12-14cm beautiful plants with bright red and fat pitchers, which are completely pubescent, super plants !	16,--
S. purpurea ssp. venosa Reedy Creek x montana Jackson Co , 12-14 cm seedgrown plants, own cross, really nice plants with wavy lids	16,--
S. purpurea ssp. venosa var burkei f. luteola x purpurea var. purpurea "Veinless form" 10 cm seedgrown plants, some are plain green some show some veins	14,--
S. purpurea ssp. venosa "Wavy lid" x ssp. venosa "Buddha Belly" 10-12 cm	14,--
Sarracenia rubra	
S. rubra ssp. alabamensis Red Form, RvL RA 02 , 30 cm red form, good grower	12,--
S. rubra ssp. alabamensis , 30 cm big yellow pitchers, good autumn grower	12,--
S. rubra ssp. alabamensis , Chilton, Alabama, 30 cm, good grower big yellow pitchers	12,--
S. rubra ssp. alabamensis , Thorsby, Alabama, 30 cm, good grower big yellow pitchers	12,--
S. rubra ssp. gulfensis "Dark Tall pitchers" , ex J. Welham, 30 cm very dark pitchers, which last over winter	14,--
S. rubra ssp. gulfensis, North of Shoal River , Walton Co PW rg 11 Stocky plants	12,--
S. rubra ssp. gulfensis "Giant Form" ex T. Carow very dark, extremely tall pitchers, very showy plant	16,--
S. rubra ssp. gulfensis "Stocky" , 15-20 cm small growing gulfensis type, stocky form ex. E. König	12,--
S. rubra ssp. gulfensis "Wavy Lid Giant Form" , iP R 27 dark red, tall pitchers	14,--
S. rubra ssp. gulfensis f. luteoviridis, (heterophylla) , Yellow River, Florida anthocyan free form, yellow flower	12,--

S. rubra ssp. gulfensis, Yellow River, MK RG 5, 20-30cm grown from wild collected seeds	12,--
S. rubra ssp. ionesii f. viridescens (heterophylla), 30-40 cm anthocyan free form, yellow flower	12,--
S. rubra ssp. ionesii, Caesar's Head, Greenville Co. South Carolina slender pitchers, very dark autumn coloration	14,--
S. rubra ssp. ionesii, McLures Bog, Henderson Co, North Carolina, 20-30 cm short, stocky pitchers	14,--
S. rubra ssp. ionesii, 25-30 cm typical form	14,--
S. rubra ssp. rubra "All Green" 20 cm, White Water Creek, Taylor Co, Georgia all green form, short stock pitchers	24,--
S. rubra ssp. rubra "Ancestral Form", Crawford Co, Georgia, PW RR 01	14,--
S. rubra ssp. rubra "Ancestral Form", Sheely Pond, Edmund, Lexington Co, SC relic plant, Fall line	14,--
S. rubra ssp. rubra "Long Lidded Form", North Carolina, 15-20 cm, ex wild seed seedgrown plants, all different clones	12,--
S. rubra ssp. rubra "Long Lidded Form", North Carolina, MK RR 4, 20-30 cm tall plant with extremely long lids	12,--
S. rubra ssp. rubra, 20 cm ex. M. Erbacher	10,--
S. rubra ssp. rubra, Ash Co., 20 cm nice typical form	12,--
S. rubra ssp. rubra, near Shallote, Brunswick Co., 15-20 cm short stocky plants	12,--
S. rubra ssp. wherry "Chatom Giant", MK RW 6 forms pitchers up to 60 cm	14,--
S. rubra ssp. wherry "Large Wavy Lids", Escambia Co, Alabama, MK RW 7 stocky pitchers a bit pubescent	10,--
S. rubra ssp. wherry "Orange Flower", 20-30 cm typical wherry with an orange flower	12,--
S. rubra ssp. wherry "Yellow Flower", 30 cm yellow flowered form	10,--
S. rubra ssp. wherry "Wavy Lid", 25-30 cm good grower	12,--
All Sarracenia offered, are strong, mainly flowering sized divisions, established in pots	
for one year (or fresh divided in winter or spring).	
The size given is the minimum size they have at the moment of sale or before cutting.	
Sarracenia Hybrids	
S. (leucophylla var. luteoviridis x courtii anthocyan free) x self , 20-25 cm cm, All Green ! very nice, easy and big growing all green hybrid	12,--
S. flava MK F 88 x flava heterophylla, 30cm good colored plants	12,--
S. flava Super Ornata x Rubra, strong veined, compact plant	12,--
S. flava var. rubricorpora x flava var. heliamphoroides, 25 cm will be interesting to create hybrids with	14,--
S. leucophylla "Pink/Red" x Leah Wilkerson, 20-30cm own cross	14,--
S. leucophylla Helmut's Delight x Leah Wilkerson, seedgrown plants, all different	12,--
S. leucophylla Sta. rosa Co x Leah Wilkerson	14,--
S. leucophylla var. luteoviridis x courtii anthocyan free, 25-30 cm, All Green ! very nice, easy and big growing all green hybrid	12,--
S. leucophylla x alata different clones from seed	10,--

S. leucophylla x oreophila nice plant, easy grower	12,--
S. leucopylla AF x alata AF , 15cm own cross	12,--
S. moorei Leiden x Leah Wilkerson , seedgrown plants, all different	12,--
S. oreophila x flava , 30 cm, hardy similar to oreophila, easy grower	12,--
S. psittacina f. heterophylla Sandy Creek Giant x minor f. heterophylla , 10-12cm , All Green ! seedgrown, all green plants S. x formosa with the psittacina Giant as parent	12,--
S. psittacina f. heterophylla x minor f. heterophylla , 10-14 cm, All Green ! seedgrown, all green S. x formosa, very rare	14,--
S. x alata "Night" x leucophylla , 40cm own hybrid, nearly black pitchers with white windows	18,--
S. x Brooks Red , 40 cm good grower, dark red pitchers	14,--
S. x Catesby "Red Blotch" , 25cm own cross, green plants with a red Splotch	14,--
S. x catesby "Red Plant" , 20-25 cm, seedgrown dark red stocky plants	12,--
S. x Catesby "Inverse Veined" 30 cm natural hybrid with inverse veining	14,--
S. x Green Monster all green form of x excellens, involving minor var. okeefenokeensis, all green	24,--
S. x Kimber Red Ruffles , 30cm all red pitchers	28,--
S. x mitchelliana "All Green" own cross, purp f. luteola x leuco all green, all green plants, nice ruffled lids	16,--
S. x mitchelliana "All Green" own cross, purp f. pallidiflora x leuco all green, all green plants, nice ruffled lids	16,--
S. x Mitchelliana "Red" , 20 cm seedgrown plants, all different clones	14,--
S. x Mitchelliana AF x leuco AF , 10-15 cm own cross	12,--
S. x moore "White Top" , 30-40 cm own cross	16,--
S. x moorei very large form, green with some red veins	12,--
S. x moorei yellow pitchers, red veins, with a red patch	12,--
S. x moorei "Adrian Slack" only a few plants in stock	90,--
S. x moorei "Leah Wilkerson" only a few plants available	65,--
S. x moorei "All Red" , 30/40 cm all red pitchers	16,--
S. x moorei "Leiden" , 30-40 cm nice more with a red splotch	18,--
S. x moorei "Red/White" , 30-40 cm own cross	14,--
S. x moorei All Green, anthocyan free form , 40 cm, All Green ! own cross, flava All Green Shallote x leuco L46 Mk, green/white pitchers	14,--
S. x moorei, Elisabeth H 89 MK tall colorful pitchers	18,--
S. x Brook's Hybrid MK H7 , 40-50 cm should be one of the tallest Sarracenias at all	14,--

Nepenthes

N. adnata, Kelog Sembilan , seedgrown 8-10 cm	12,--
N. albomarginata "Green Pitchers with some speckles" , 8-10cm, seedgrown	12,--
N. albomarginata "All Red Plant" , red plant and pitcher, 8-10 cm, seedgrown	14,--
N. ampullaria "Giant Green" , Tayeve, cuttings 20-30 cm	22,--
N. ampullaria Hot lips , cuttings 15-20 cm	32,--
N. ampullaria speckled , seedgrown 8-10 cm	8,--

N. ampullaria speckled, seedgrown 12-14 cm	12,--
N. ampullaria speckled, 20-25 cm	15,--
N. ampullaria, all different, very nice red speckled and tricolor pitchers, 25-30 cm	38,--
N. ampullaria "Tricolor", Bau, Sarawak, cuttings 15-20 cm, green with red spots	22,--
N. beccariana, 10 cm, seedgrown	18,--
N. bicalcarata, 10-12 cm	14,--
N. bongso, 6-7 cm, seedgrown	14,--
N. burkei, 12-14 cm	16,--
N. campanulata, 8-10 cm (hard grown)	29,--
N. campanulata, 12 cm (hard grown)	36,--
N. dubia, Sumatra, 5-6 cm, seedgrown	32,--
N. glabrata, 6-7 cm	20,--
N. gracilis, seedgrown, Sarawak, Matang Area, 15 cm	10,--
N. inermis, seedgrown, Sumatra 5-6 cm	30,--
N. jacquelinae, 6-7 cm, seedgrown	20,--
N. lingulata, 6-8 cm, seedgrown	38,--
N. lowii, Gunung Trus Madi, 6-8cm, seedgrown	28,--
N. neoguineensis, 15 cm	18,--
N. macfarlanei, Genting Highlands , 8-10 cm	16,--
N. macfarlanei, Gunung Brinchang, 6 cm, seedgrown, hybrids possible	14,--
N. madegascariensis, seedgrown, 6-8 cm	16,--
N. maxima Large Form, Sulawesi, 12-15 cm, ex Taiwan	16,--
N. maxima Wavy Leaf Form x typical form , 8-10 cm, seedgrown	14,--
N. minima Lake Poso, 5-7 cm	10,--
N. minima Lake Poso, 8-10 cm	15,--
N. naga, 6-8 cm, seedgrown	18,--
N. palawanensis, Phillipines, 6-8 cm, seedgrown	28,--
N. palawanensis, Phillipines, 8-10 cm, seedgrown	38,--
N. papuana 10 cm	18,--
N. rafflesiana "Dark Brown Leaves/Brown, Red, squat pitchers", 12cm, seedgrown	15,--
N. rafflesiana "Tricolor Pitchers", 15+ cm, seedgrown	18,--
N. rafflesiana, typical form, 8-10 cm, seedgrown	10,--
N. rafflesiana, typical form, 20-25 cm, seedgrown	16,--
N. reinwardtiana "Green", Sabah, 8-10 cm cm, seedgrown	10,--
N. reinwardtiana "Green", Sabah, 10-14 cm cm, seedgrown	14,--
N. reinwardtiana "Red", short red pitcher, Kelabit highlands, 8-10 cm, nice !	14,--
N. spectabilis Giant, Gunung Bandahara, 8-10 cm	26,--
N. spectabilis Bandahara x Sibuatan , 6-8 cm	22,--
N. spec. Murud, seedgrown, 8-10 cm, should be vogelii, but clearly not, more like fusca or platychila	16,--
N. sumatrana, seedgrown, 8-10 cm	18,--
N. sumatrana, seedgrown, 15-20 cm, seedgrown	24,--
N. talangensis, 6-8 cm , seedgrown	22,--
N. tomoriana, seedgrown, 10 cm	16,--
N. truncata, 5-6 cm	16,--
N. veitchii G. Murud Striped per x veitchii Green Peristome, 5-7 cm, seedgrown	18,--
N. veitchii G. Murud Striped per x veitchii Green Peristome 8-10 cm, seedgrown	24,--
N. veitchii G. Murud striped per. x veitchii Candy striped, 8-10 cm, wide variation expected, seedgrown	28,--
N. veitchii G. Murud striped per. x veitchii Candy striped, 10-14 cm, wide variation expected, seedgrown	36,--
N. ventricosa, 12-15 cm	12,--
N. vieillardii red, 10 cm	12,--

Nepenthes Hybrids

N. aristolochoides Tujuh x ? (Singalana) , 6-10 cm, seedgrown	16,--
N. burkei x alata Mt. Halcon, 6-7 cm	6,--
N. burkei x alata Mt. Halcon, 15-20 cm	12,--
N. copelandii x lowii, 6-8 cm, seedgrown	28,--

N. glandulifera x veitchii "Candy" seedgrown, 5-7 cm	18,--
N. maxima Typical large x veitchii Candy, seedgrown 5-7 cm (= Tiveyi)	18,--
N. mira x copelandii, 12-15 cm, seedgrown, very nice red pitchers	14,--
N. murudiensis x muluensis, 6-7 cm, seedgrown	16,--
N. platychila x boshiana, 10 cm, seedgrown	16,--
N. platychila x lowii, 5-6 cm, seedgrown	28,--
N. platychila x vogelii, 6-8 cm, seedgrown	12,--
N. platychila x vogelii, 10-12 cm, seedgrown	16,--
N. rafflesiana "Elongata" x tenuis, 10-12 cm, seedgrown	18,--
N. spathulata x lowii, 5 cm, seedgrown	28,--
N. spathulata x spectabilis, 7-10 cm, seedgrown	12,--
N. spathulata x spectabilis, 10-14 cm, seedgrown	16,--
N. spectabilis x veitchii Murud striped peristome, 8-10 cm, seedgrown	12,--
N. spectabilis x veitchii Murud striped peristome, 12-14 cm, seedgrown	16,--
N. thorellii (true) x lowii, 10-12 cm, seedgrown	28,--
N. thorellii (true) x hamata, 5-7 cm, seedgrown	18,--
N. veitchii "Murud Striped" x campanulata, seedgrown 6 - 8 cm	18,--

All imported plants listed above, are grown and acclimated for a minimum of some months in my greenhouse . So you can be shure to get a plant, what used to grow under hard conditions !!!

Heliamphora

H. minor Auyan Tepui, 6-8 cm, adult plant clumps	14,--
H. minor Auyan Tepui, 8- 10 cm, adult plant clumps	20,--
H. minor Auyan Tepui, 10-14 cm, big plant clumps	35,--
H. nutans, 12-15 cm	18,--
H. pulchella Churi Tepui, 8-10,dark red course hairs inside traps	32,--

Heliamphora Hybrids

H. minor x heterodoxa, 8-10 cm, adult nice multigrowth plant, good grower, similar to minor	13,--
H. minor x heterodoxa, 12 cm, adult nice multigrowth plants, good grower, similar to minor	20,--
H. minor x heterodoxa, 12-15 cm, adult large plants, good grower, similar to minor	25,--

Pinguicula (not hardy)

We deliver half adult plants, the size can be different because of dormancy of plants .

P. agnata	5,--
P. agnata Scented Flower	6,--
P. agnata Yellow Long Leaf	6,--
P. ehlersae, violet Flower	6,--
P. gigantea, the biggest species of the whole genus	10,--
P. jamaicensis, small growing species, violet flowers	5,--
P. rectiflora, upright standing pink flowers	7,--

Pinguicula Hybrids (not hardy)

P. colimensis x moctezumae	7,--
----------------------------	------

<i>P. jamaicensis</i> x <i>moctezumae</i>	5,--

Pinguicula (hardy)

<i>P. grandiflora</i> , nice blue flowers	5,--
<i>P. hirtiflora</i> Mount Olymp, (possibly <i>P. louisii</i>) Greece, produces flowers all over the year and seems to be hardy !	10,--
<i>P. longifolia</i> ssp. ? Zuccarello, Italy	10,--
<i>P. macroceras</i> ssp. <i>northensis</i> , Californian Mountains	8,--
<i>P. macroceras</i> , Japanese origin	10,--
<i>P. spec. Rio Ara</i> , red leaves, maybe a hybrid involving <i>P. grandiflora</i>	8,--
<i>P. vallisneriifolia</i> x <i>grandiflora</i>	6,--

We deliver flowering size plants or semi-adult winter buds, no gemmae !

Dionaea

<i>D. muscipula</i> "Adentata", upright grower nearly toothless traps	28,--
<i>D. muscipula</i> "Alien" the one with the extraterrestrial smile	14,--
<i>D. muscipula</i> "All Red"	8,--
<i>D. muscipula</i> "Angel Wings"	18,--
<i>D. muscipula</i> "Archangel"	12,--
<i>D. muscipula</i> "ARPC", good grower	7,50
<i>D. muscipula</i> "Australian Red Rosetted", large redtraps, flat growing	10,--
<i>D. muscipula</i> "Australian"	10,--
<i>D. muscipula</i> "B-52", said to have the biggest traps of all clones	9,--
<i>D. muscipula</i> "Basmati"	16,--
<i>D. muscipula</i> "BCP 1343", cupped traps long petioles	16,--
<i>D. muscipula</i> "BCP Akai Riu Clone D44", very dark red, flat rosettes	8,--
<i>D. muscipula</i> "BCP Akai Riu Clone F12", upright, coarse teeth	7,50
<i>D. muscipula</i> "BCP Akai Riu Clone F15", upright, good red, long teeth	7,50
<i>D. muscipula</i> "BCP Akai Riu Clone F3", very big, dark red	8,--
<i>D. muscipula</i> "BCP Akai Riu Clone F5", very big, dark red, piranha teeth	8,--
<i>D. muscipula</i> "BCP Akai Riu Clone F8", dark red, flat traps	8,--
<i>D. muscipula</i> "BCP Akai Riu Clone F9", large, dark red traps and upright	7,50
<i>D. muscipula</i> "BCP Clone Z 11", forms giant traps	10,--
<i>D. muscipula</i> "BCP Clone 1343", cupped traps on long petioles	18,--
<i>D. muscipula</i> "BCP Clone H-15", upright traps with a red blotch inside the trap, good grower	7,50
<i>D. muscipula</i> "BCP Clone X - 11", dentate traps	8,--
<i>D. muscipula</i> "BCP Clone X 11", nice clone with triangular teeth	9,--
<i>D. muscipula</i> "BCP Crazy Cup Trap", cupped traps	16,--
<i>D. muscipula</i> "BCP Kim Il Sung", very strange growing clone	18,--
<i>D. muscipula</i> "BCP Kim Young II"	18,--
<i>D. muscipula</i> "BCP Phoenix", this really a yellow VFT in full sun !	18,--
<i>D. muscipula</i> "BCP Red Fused Petiole Clone F4 BCP" dimorphic, leaf and trap are connected	10,--
<i>D. muscipula</i> "Bear Trap", upright grower, big traps	10,--
<i>D. muscipula</i> "Big Behemoth"	16,--
<i>D. muscipula</i> "Big Mouth", flat big red traps, medium sized plants	7,--
<i>D. muscipula</i> "Big teeth, red Giant", very large traps, flat growing	10,--
<i>D. muscipula</i> "Bimbo", coming from Dr. König, very big traps	10,--
<i>D. muscipula</i> "Biohazard 1" still <u>not</u> stable clone, but very extreme and nice mutation, but can drop back to normal form !	20,--
<i>D. muscipula</i> "Biohazard 2", new clone, similar to Biohazard, more green traps and stable	38,--
<i>D. muscipula</i> "Blezers Giant Form Dm 06" typical form, very big traps	9,--
<i>D. muscipula</i> "Bohemian Garnet" (Red Sawtooth), flat growing, red sawtooth traps	7,50

D. muscipula "Boomans Mutant", US Clone, red traps upright growth	14,--
D. muscipula "Burbanks Best "	12,--
D. muscipula "Carolina state Beach park", location plants, very nice typical form	9,--
D. muscipula "Cerberus" mutant form what forms mostly 3 traps per leaf	16,--
D. muscipula "Charlie Mandon Spotted", green traps with red spots	12,--
D. muscipula "Clayton's Vulcanic Red", deep red form	8,--
D. muscipula "Clumping Cultivar", flat, short leaves, many traps, beautiful clone	7,--
D. muscipula "Coquillage", flat growing, nearly no teeth, 6-8 cm	10,--
D. muscipula "Creeping Deeth" upright traps of big size	12,--
D. muscipula "Crocodile", green/red traps and fused petioles	10,--
D. muscipula "Cropped Teeth Blotchy"	8,--
D. muscipula "Cross Teeth China" Mutant form coming from a Tc lab in China	8,--
D. muscipula "Cross Teeth", different from the usual offered clones from other sources	8,--
D. muscipula "Cup Trap new Clone", much better than the old clone, forms big clusters of traps	10,--
D. muscipula "Cup Trap", very nice plants available	8,--
D. muscipula "DC/XL", US Clone, very large	18,--
D. muscipula "Dent long"	7,50
D. muscipula "Dentata", one of the oldest clones, original from Germany	7,--
D. muscipula "Dentaté", nice form with little triangle teeth, very different from clone Dentata	8,--
D. muscipula "Destroyer", very large clone selected by Klaus Ivanez	20,--
D. muscipula "Dingley Giant", nice colored clone	7,50
D. muscipula "Dm 30 All green" green, flat rosettes	9,--
D. muscipula "Eyelash", big traps with very long teeth	12,--
D. muscipula "Fake Dracula", green dimorphic, very nice teeth. Not the real clone !	8,--
D. muscipula "Fangzahn", flat traps with long teeth	12,--
D. muscipula "Feather Teeth", red traps, very short teeth	20,--
D. muscipula "Fondue", mutant form with deformed traps	16,--
D. muscipula "Freaky Star", double ribbed trap, mutated clone	14,--
D. muscipula "FTS Archangel", US clone, very red traps	16,--
D. muscipula "FTS Maroon Monster", US clone, dark red traps	12,--
D. muscipula "FTS Towering Giant"	14,--
D. muscipula "Fused Tooth Extreme"	9,--
D. muscipula "Fussy Teeth", teeth are unregular and a bit curled	10,--
D. muscipula "G 14, Dirk Venthams Giant", good contrasted big traps	9,--
D. muscipula "G 16", Slack's giant, one of the biggest clones	10,--
D. muscipula "G 3" nearly toothless flat form, very big green traps formed like a saddle, showy !	20,--
D. muscipula "G 35", very big, all green variant	8,--
D. muscipula "Galaxy", strange formed red traps	20,--
D. muscipula "GB 01", upright nearly toothless rosettes, ex Guillaume Bily	16,--
D. muscipula "Giant Microdent", very large growing plants	26,--
D. muscipula "Gj Basmati",	24,--
D. muscipula "Green Microdent" new clone, pale green color	24,--
D. muscipula "Green Sawtooth", completely green plant	8,--
D. muscipula "Green Swamp, NC", location plant	10,--
D. muscipula "Green Wizard", similar to coquillage but green, flat rosette	12,--
D. muscipula "Grüner Findling", all green plant	10,--
D. muscipula "Günter Seiter's Clone", very nice selected typical clone	8,--
D. muscipula "H-52, BCP", green trap, with a red blotch inside	8,--
D. muscipula "Haircomb", similar to alien	10,--
D. muscipula "Harmony", very nice mutation, green traps, good grower, nearly no teeth in summer	16,--
D. muscipula "Kayan", extremely long petioles	10,--
D. muscipula "La grosse a GuiGui", G. Bily's giant form, upright growing, biggest clone in my collection !!!	12,--
D. muscipula "La grosse a GuiGui", G. Bily's giant form, upright growing, biggest clone in my collection !!!	xxl plants 20,--
D. muscipula "Louchapates", 6-8 cm, good grower, very nice traps	10,--
D. muscipula "Low Giant" flat very big traps	8,--
D. muscipula "Master of Disaster", forms clusters of traps, not stabil !	18,--

D. muscipula "Melody Shark Teeth", very slow, upright growing, very reduced plant	14,--
D. muscipula "Microdent Seedgrown ", very close to the original, with some color variation	10,--
D. muscipula "Microdent", green/orange flat growing plants which show nearly no teeth,	12,--
D. muscipula "Mirror" mutant form, forms 2 wings outside the trap	16,--
D. muscipula "Monkey Ass", big flat traps,	12,--
D. muscipula "Moon Trap"green, wide open traps	14,--
D. muscipula "Olive Green", flat, dark green with very little red in it	7,50
D. muscipula "Paradisias", orange colored traps	7,50
D. muscipula "Patches", selected plants, red spots on green traps,	16,--
D. muscipula "Petite Dragon", all red clone	8,--
D. muscipula "Phalanx", big traps with extremely long teeth	14,--
D. muscipula "Pink Venus", flat, dark red rosettes	12,--
D. muscipula "Pluto # 17", small growing clone	10,--
D. muscipula "Predator",very large clone selected by Klaus Ivanetz	20,--
D. muscipula "Pygmy", small growing clone with nice color	14,--
D. muscipula "Quadrotap", traps are nearly quadratic	10,--
D. muscipula "Rabbit teeth", green traps, very large plants with very robust teeth	14,--
D. muscipula "Raptor", small growing plant with strong teeth	14,--
D. muscipula "Red Burgundy" deep red traps, very big clone	9,--
D. muscipula "Red Cup Trap", all red cup shaped traps	28,--
D. muscipula "Red Dragon"	12,--
D. muscipula "Red Hole", small clone, cup shaped traps	12,--
D. muscipula "Red Line", big upright standing traps	9,--
D. muscipula "Red Piranha"	10,--
D. muscipula "Red Road / Oxford", location plant	9,--
D. muscipula "Red Shark Teeth", very dark red, traps with triangular teeth, 8-10 cm	10,--
D. muscipula "Red/Green", colorful clone, upright growing	7,50
D. muscipula "Rose", does never form any traps !	12,--
D. muscipula "Rouge Sombre", very colorfull	10,--
D. muscipula "Royal Red", very dark red, dimorphic rosettes	10,--
D. muscipula "Sawtooth", big traps, good grower	8,--
D. muscipula "Scarlatine", green/reddish traps, with dark red spots onto	14,--
D. muscipula "Schuppenstiel 1", 8-10 cm, strong mutation on the leaves, medium sized plants	10,--
D. muscipula "Schuppenstiel 2", 8-10 cm, strong mutation on the leaves, medium sized plants	10,--
D. muscipula "SD Draco", US clone, red bronze traps	12,--
D. muscipula "Shark Teeth", traps with shark teeth	7,50
D. muscipula "Short Teeth", very short teeth at autumn traps	8,--
D. muscipula "SL 14", very large, flat, piranha teeth	10,--
D. muscipula "SL 15", extremely large traps, good grower, piranha teeth	10,--
D. muscipula "South West Giant", very large traps	12,--
D. muscipula "Space", mutant form	14,--
D. muscipula "Spider", all traps upright on very long petioles	9,--
D. muscipula "Spotty", dark red rosettes with red spots, can drop back to normal or red form !	12,--
D. muscipula "Stiletto",traps with fused teeth	24,--
D. muscipula "Switzerland Giant", very large traps, similar to Redline	10,--
D. muscipula "Tiger Fangs", flat growing, very big red traps with shark teeth	7,50
D. muscipula "Tiger Teeth", better clone than shark teeth	9,--
D. muscipula "Tim's Giant", big traps, orange / yellow plant	9,--
D. muscipula "Trichterfalle" (Funnel Trap), big plants available	8,--
D. muscipula "Triton", very unusual green fused traps,	12,--
D. muscipula "UK Sawtooth I", very good grower, big traps	8,--
D. muscipula "UK Sawtooth II", very good grower, big traps	8,--
D. muscipula "Umgekrempelt", traps are growing crumbled, inside out	16,--
D. muscipula "Unspotty", these are spottys which dropped back to normal, can be red green or between	8,--
D. muscipula "Wacky Trap", very special designed traps	10,--
D. muscipula "WB 4", green flat growing plants, very similar to clone Raptor	10,--

D. muscipula "Werewolf" , upright growing plant, very nice, one of my favorites,	14,--
D. muscipula "Whale" , interesting sawtooth form, medium sized plants	10,--
D. muscipula "X1 Carnipedia" selected form with dentata traps	8,--
D. muscipula "Yellow Fused Teeth, new clone" , better grower than the older clone, flat grower	9,--
D. muscipula var. heterophylla "Selection" , very big traps, this seems to be a true Anto Free form	7,--
D. muscipula var. heterophylla , flat grower, all green plant, good sized traps	7,--
D. muscipula , Typical form, hardy	5,--
Offer: 5 different labeled Dionaea clones of our choice, strong plants	only 29,--
Offer: 10 adult typical Dionaea plants	only 34,--
please note, this offer is only valid for plants of <u>our own</u> choice !	

We deliver fully grown plants, mostly of flowering size, if not otherwise mentioned !

Darlingtonia

D. californica , 7-8 cm	12,--
D. californica , 10-14cm	Spring 18 16,--
D. californica f. viridiflora, "Othello" , the all green variant of a cobra lily, grown from seed, 7-8 cm	30,--

Genlisea

Grow them under the same conditions as Utricularia and give them a plenty of light .
We deliver flowering size divisions .

G. subglabra	10,--
---------------------	-------

Utricularia (terrestrial, epiphytic or aquatic species)

We deliver good sized divisions , grow them in a mix of peat and sand.

U. aff. dichotoma "Tuber Forming Form" , Anglesa, Victoria, possibly a new species	6,--
U. aff. dichotoma "Tuber Forming Form" , Beernak ,Victoria, possibly a new species	6,--
U. aff. longifolia , possibly a hybrid with U. calycifida	5,--
U. alpina , epiphytic, big white flowers	7,--
U. aureomaculata , Aparaman Tepui, yellow flowers with some red in them	8,--
U. aureomaculata , Murosipan Tepui, yellow flowers with some red in them	8,--
U. australis , aquatic, hardy bog plant	5,--
U. bifida , yellow flower , Sabah Borneo	5,--
U. biloba , blue flowers, grows very deep under water	6,--
U. biloba , Mooloolaba	7,--
U. biloba , South of Sidney	7,--
U. bisquamata "Big purple Flower" , many flowers, easy grower	5,--
U. bisquamata var. esterhuysenae	7,--
U. blanchetii "Violet" , Pico del Almas	5,--
U. calycifida "Asenah White" , long flower stalks, violet flower	7,--
U. calycifida "White" broad leaves, white flower	7,--
U. chrysantha , Kings Cascades, Regent River, yellow flowers on very tall stalks, very nice	7,--
U. chrysantha , Little Mertens Falls, yellow flowers on very tall stalks, very nice	7,--
U. chrysantha , yellow flowers on very tall stalks	6,--
U. cornuta , Canada, hardy	6,--
U. cornuta , yellow flowers, hardy !	6,--

U. dichotoma , blue flowers, hardy !	6,--
U. dichotoma , Chestnut, Big Flower	8,--
U. dichotoma , Falls Creek, blue flowers,	8,--
U. dichotoma , Purple Palette	8,--
U. dichotoma , Reedy Swamp	8,--
U. dichotoma , Southwest Nsw	8,--
U. flaccida , yellow flowers on tall scapes	6,--
U. fulva , Rockhole	9,--
U. juncea , Sav. Canal Okee Swamp	8,--
U. lateriflora , Lake St. Claire	8,--
U. lateriflora , Mount Kompass	8,--
U. laxa , yellow flowers	8,--
U. livida , white/pink flowers	5,--
U. livida Rwanda , Purple Flower	7,--
U. livida , Lemon Flower	8,--
U. livida , Marojeli	8,--
U. livida , Mkambati	8,--
U. livida , Merrivale	8,--
U. longifolia var. forgetiana , many flowers for along time over the year	6,--
U. minutissima , G. Tahan , many violet flowers	6,--
U. monanthos	8,--
U. monanthos , Hartz Mountains	8,--
U. monanthos , Nive River	8,--
U. nana , yellow flowers green leaves, rare and very nice, warm grower	8,--
U. nana , yellow flowers, brown leaves	8,--
U. novae – zealandiae , similar to dichotoma, short inflorescence	8,--
U. parthenopipes , white flower	7,--
U. paulinae	8,--
U. paulinae , Whalepole	10,--
U. praelonga , yellow flowers, half aquatic	5,--
U. prehensilis , big yellow flowers	5,--
U. prehensilis , Mkambati, yellow flowers	7,--
U. pubescens , peltate leaves ,	8,--
U. quelchii , Ilu tepui, beautiful Orange Flowers	Spring 18 30,--
U. reniformis "Big Form" , very big flowers on really high stalks, very cold tolerant	15,--
U. sandersonii White Flower	5,--
U. scandens	6,--
U. simplex	6,--
U. spec. Kerala , blue flowers	8,--
U. spec. Zimbabwe	8,--
U. steyermarkii , Auyan Tepui	10,--
U. subulata , yellow flowers	3,50
U. tricolor	6,--
U. tridentata , purple flowers	6,--
U. uliginosa , Bako, Sarawak, Borneo	8,--
U. uniflora	6,--
U. uniflora "Snow in Summer" , nearly white flower	8,--
U. uniflora, L- type , bright pink flower	8,--
U. uniflora , Lismore, Nsw	8,--
U. uniflora , Reflex Lower Corolla	8,--
U. x cornigera x nelumbifolia , very big leaves, long flowerstalks	12,--
U. x nelumbifolia x reniformis , masses of flowers, on tall scapes, flowers all over the year	12,--
U. x nephrophylla x geminiloba , big white flowers on long scapes, nice leaves	10,--

Unless we try to grow them clean, it is possible that smaller species are sometimes mixed with **U. subulata var. cleistogama** !

Drosera

D. adelae	6,--
D. anglica, Europe, hardy	8,--
D. binata	6,--
D. binata "Marston Dragon"	8,--
D. binata var. dichotoma f. pedata (Giant Form)	8,--
D. binata var. multifida	6,--
D. capensis	3,50
D. capensis "Baines Kloof", forms stems up to 30 cm ,very unusual	10,--
D. capensis "Compact Form", very slow, small growing plants	8,--
D. capensis "Giant", 30 cm, forms stems with very long leaves	10,--
D. capensis "Minor", my smallest clone of capensis, grows very slow	10,--
D. capensis "Montague Pass", stem forming upto 30 cm	10,--
D. filiformis "All Red", red leaves, not very hardy	6,--
D. filiformis "White Flower", long pale leaves	8,--
D. filiformis var. filiformis "Florida Giant", very long leaves	8,--
D. filiformis var. filiformis, hardy	6,--
D. filiformis var. tracyi, very long green leaves	9,--
D. graomogolensis, gets really large, rare	10,--
D. intermedia, all green plant, USA	8,--
D. intermedia, Europe, hardy	6,--
D. rotundifolia, plant clump, hardy	6,--
D. x Andromeda, tropical hybrid by Kamil Pasek	10,--

Brocchinia and Catopsis

B. reducta, 12-15 cm	16,--
----------------------	-------

Cephalotus

C. follicularis, very big xxl plants ! Sent potted in 12cm pots and more than full !	29,--
C. follicularis, adult pitchers, very nice plants potted in 8,5 pots	19,--
C. follicularis, small plant clumps around 4 cm	10,--

Ant plants of different genus

Growing these interesting plants is easy under warm conditions. Fertilize regularly and do not grow them too wet (no ants necessary ;-)))

Hydnophytum (Ant tuber)

Flat or elongated tubers growing epiphytic in the nature, red fruits, small, a bit succulent leaves

Hyd. formicarum, size ca. 10 cm, tubers up to 25 cm possible	9,--
Hyd. formicarum, size ca. 15-20 cm, tubers up to 25 cm possible	12,--
Hyd. moseleyanum, size ca. 10 cm, produces very big tubers	10,--
Hyd. moseleyanum, size ca. 15-20 cm, produces very big tubers	15,--
Hyd. puffii (perangustum) size 10-14 cm, ex Hyd. spec. Needle Leaf	15,--
Hyd. simplex, size ca 10 cm, triangular tuber	10,--

Hyd. simplex, size ca. 15 cm, triangular tuber	15,--
--	-------

Myrmecodia and Myrmephytum (Ant tuber)

Bizzar looking, mostly spiny tubers, white flowers and red fruits coming directly from the stem

Myrmecodia echinata , 6-8 cm plants, round tubers	12,--
Myrmecodia tuberosa, ca. 10-12 cm plants, roundish or elongated tubers	12,--
Myrmecodia tuberosa, ca. 15-18 cm plants, roundish or elongated tubers	16,--
Myrmephytum beccarii, Phillipines, ca. 10-14 cm, small seedgrown plants	22,--

Lecanopteris (Ant fern)

Highly interesting, very unusual looking tropical ferns, which are inhabited by ants in the nature. We send nice strong divisions from our stock plants.

Lec. aff. lomarioides, similar to the species, but clearly different	Spring 18	28,--
Lec. carnosa, rhizomes with little antennas		20,--
Lec. celebica, very fat green/black rhizomes, long leaves		18,--
Lec. curtisii, waxy blue shining rhizomes		25,--
Lec. darnaedii, big spiny rhizome	Spring 18	28,--
Lec. holttumii, green hairy rhizome, highland plant		25,--
Lec. lomarioides, upright growing rhizomes, only few long leaves	Spring 18	35,--
Lec. luzonensis, compact gnarled rhizomes		25,--
Lec. pumila x celebica		18,--
Lec. pumila, gnarled, green/black rhizomes, also for cold conditions		18,--
Lec. sinuosa, fingerlike rhizomes with undivided leaves, lowland plant		12,--

Xxl -plants, very big size, multicrown plants:

Lec. carnosa		28,--
Lec. holttumii, green hairy rhizome, highland plant	Spring 18	34,--
Lec. pumila x celebica		28,--
Lec. sinuosa		23,--

Dischidia (Urne plant)

Nice plants for hanging baskets or terrariums, we send good sized unrooted cuttings, which do root immediatly (potted or mounted)

Disch. acutifolia, Malaysia		8,--
Disch. astephana, really nice red and blue flowers, hairy leaves which connect themselves on the ground		10,--
Disch. bengalensis, reduced terete leaves		8,--
Disch. cleistantha, ex Bot.Garden Nancy		8,--
Disch. cochleata, Borneo, rare species		15,--
Disch. collyris, round leaves which connect to the ground		8,--
Disch. hirsuta "Big form"		8,--
Disch. hirsuta, small heart shaped leaves		6,--
Disch. imbricata, big, waxy, grey round leaves, very nice species		12,--
Disch. livida, small species, purple flowers		6,--

Disch. major "Big Form" , forms 10 cm long urnes, which are inhabited by ants in the wild	12,--
Disch. major "Intermediate sized urnes" , Phillipines , 5-7 cm urnes	12,--
Disch. major "Small Form" , Lundu (Borneo), urnes up to 5 cm	12,--
Disch. major "Small Form" , Sumatra, urnes up to 5 cm	12,--
Disch. nummulariifolia , very small leaves	6,--
Disch. oiantha (spec.Borneo) , round leaf with a white waxy surface	6,--
Disch. ovata , oval leaves with white veins	6,--
Disch. purpurea , ex bot. Garden Nancy	8,--
Disch. ruscifolia , small heart shaped leaves	6,--
Disch. spec. Alex	8,--
Disch. platyphylla , big round leaves , fantastic looking plant	15,--
Disch. spec. North Vietnam	10,--
Disch. spec. Snaily , pink flowers, half closed urnes, maybe a hybrid ?	8,--
Disch. spec. Thailand , small Reddish leaf	10,--
Disch. spec. Wilhelma	8,--
Dischidiopsis parasitica , elongated leaves	8,--
Offer: Sortiment of 5 diff. species (our choice)	28,--

Hoya (Wax flower)

Nice, tropical climbing plants, which produce very nice, fragrant, waxy flowers.

We send good sized, unrooted cuttings, which root immediatly after potting.

Hoya acicularis , reduced leaves	8,--
Hoya buotii	8,--
Hoya calycina "Stargazer" pubescent leaves and big white /red flowers	18,--
Hoya caudata , big speckled leaves	12,--
Hoya chinhungensis	8,--
Hoya curtisii , very small plant with speckled leaves	6,--
Hoya darwinii , ant plant, from time to time leaves form little ant homes like balls, white/red flower	18,--
Hoya engleriana x chinhungensis	8,--
Hoya hasseltii , small elongated, speckled leaves	8,--
Hoya heuschkeliana , small species, pink flowers	8,--
Hoya imbricata , ant plant, round, patterned leaves, which mount themselves onto the ground (stunning plant), different clones available	16,--
Hoya incurvula	8,--
Hoya kentiana , very succulent leaves, green with red line	8,--
Hoya lacunosa , small species, white flowers	8,--
Hoya lithophytica	12,--
Hoya lockii , not really a climber, more a shrub, many white flowers	20,--
Hoya mappigera , very large single flowers with red centre	25,--
Hoya micrantha	8,--
Hoya mindorensis , ball like flowers	10,--
Hoya mirabilis	10,--
Hoya obovata , very large round leaves, red/white flowers	12,--
Hoya odettae , small leaves, yellow flowers	8,--
Hoya parasitica , medium sized species, white/red flowerballs, very nice	12,--
Hoya paziae , white flowers with red center	10,--
Hoya platycaulis	35,--
Hoya publicalyx	10,--
Hoya rotundifolia , roundish a bit pubescent leaves	12,--
Hoya salweenica	8,--
Hoya serpens , very small species, white flowers with some red	8,--
Hoya thompsonii , white flowers, strong fragrance	8,--
Hoya wallichii , very big, single white flowers with red centre	25,--

Offer: Sortiment of 5 different species (our choice)

only 28,--

Sauromatum (not carnivorous) (Araceae) and other species

Pinellia pedatisecta	6,--
Remusatia vivipara, Burma, grows epiphytic on trees	8,--
Typhonium giganteum var. giraldii	6,--

Orchids

Dracula Orchids, not carnivorous

Very unusual orchids for the cold greenhouse, the flowers are hanging down, and do look like little faces.

We do send out nice divided parts, with a minimum of 5 to 7 leaves (or more)

D. erythrochaetae	Spring 18	15,--
D. lotax, temperate grower		15,--
D. lotax, temperate grower, very small form		15,--
D. mopsus		15,--
D. sodiroi		15,--
D. venosa		15,--

Disa orchids

Disa x "Colette Cywes blush", pink flower, good grower	10,--
Disa x "Reheat"	12,--
Disa x "Rosy Face", pink flowers, very good grower	10,--
Disa x Watsonii "Candy"	12,--
Disa x Watsonii Red	12,--
Disa x Watsonii, light pink flowers	12,--

Pleione

Pleione x Alisan Mt Fuji,	12,--
Pleione x Barcena (formosana x preacox)	9,--
Pleione x Burnsall	6,50
Pleione x Erebus, deep pink flowers	6,50
Pleione x Kublai Khan	9,--
Pleione x Tongariro, easy grower	6,50
Pleione x Vesuvius, colorful flowers, good grower	6,50

available from October until April

Other orchids (mostly epiphytic)

Anoectochilus spec., juwel orchid, good for terrariums	10,--
Bulbophyllum gracillimum	15,--

Bulbophyllum taniophyllum		15,--
Coelogyne fimbriata		10,--
Cynorchis fastigiata , terrestrial, grows in nearly all conditions		5,--
Kefersteinia retanae , compact growth, white flowers		15,--
Liparis gibbosa , orange funny looking flowers		10,--
Ludisia discolor , green leaves wit golden nerves, natural form		12,--
Ludisia discolor , red leaf form, white flowers		10,--
Maxilaria schunkeana , completely black flowers		14,--
Maxillaria sophronitis , beautiful orange flowers		12,--
Maxillaria variabilis , yellow flowers		12,--
Mediocalcar decorata , cool grower, little orange flowers		12,--
Pleurotallis allenii , deep red flowers with golden rim		14,--
Pleurotallis anthrax , white, spiderlike flowers		14,--
Pleurotallis bivalvis , big heart shaped leaves		25,--
Pleurotallis janettiae		14,--
Pleurotallis rowlei , small red flowers		14,--
Pleurotallis spec. 1-4 , hard shaped leaves, four different species	per plant	8,--
Pleurothallis crocodiliceps , masses of white flowers		12,--
Pleurothallis hitchcockii , round succulent leaves , white flowers		16,--
Pleurothallis restepioides , long inflorescence carrying many red/ brown flowers		16,--
Pleurothallis viduata		16,--
Restrepia antennifera		12,--
Restrepia dayana		12,--
Restrepia spec.		12,--
Scaphosepalum breve		14,--
Scaphosepalum grande		16,--
Offer: Sortiment of 5 diff. epiphytic species, optimal for terrarium growers		only 35,--

Different tropical plants for greenhouse or terrarium

These plants will be delivered as divisions, young plants or unrooted cuttings !

Aeschynanthus flavidus , new discovered species from Sarawak, the only Ae. with yellow flowers, unrooted cuttings		16,--
Aeschynanthus gracilis , small growing species with little red flowers, unrooted cuttings		12,--
Aeschynanthus spec. Mulu , pale green, round leaves		8,--
Aeschynanthus spec. , elongated leaves, red flower		8,--
Anthurium lilacinum , small growing plant with pink/lilac flowers		12,--
Begonia eleagnifolia var. schulzei , nice creeper, white flower, good for terrariums !		6,--
Begonia luzonensis , very nice leaf pattern		10,--
Begonia lyalii var. lyalii , Madagascar		12,--
Begonia microspermum, Africa , very nice leaf structure, orange flower		8,--
Begonia mildbraedii , red leaves		12,--
Begonia pavonina , blue shining leaves, Cameron Highlands	Spring 18	12,--
Begonia prismatoscapa , small species		8,--
Begonia quadriolata , green black leaf pattern		12,--
Begonia thelmae , creeper, brown / green leaves,		6,--
Ceropegia distincta var. haygarthii , climbing plant, fantastic flowers, unrooted cuttings		7,--
Chirita tamniana (Gesneriaceae) , white flower		5,--
Columnea lineata , linear leaves, purple flowers		8,--
Dracophyllum spec. stricta ?		5,--
Kalanchoe uniflora , epiphyth, hanging down, pink flowers		8,--
Lycopodium hamiltonii , ca 20-30 cm		15,--
Lycopodium phlegmaria , ca. 20-30 cm		12,--
Marcgravia spec 1 , green/reddish leaves		12,--

Medinilla sedifolia , small overhanging plant, with nice pink flowers (unrooted cuttings)	10,--
Monophyllaea spec. Borneo , only one very big leaf, plantclumps	Spring 18 8,--
Neoregelia ampullacea (Bromeliaceae) , small bromeliad, red-striped leaf	8,--
Neoregelia lilliputana (Bromeliaceae) , very small bromeliad	8,--
Pachycentria spec. , bigger than P. glauca, unrooted cuttings	10,--
Pachycentria glauca , ant plant, white flower, grows together with ant tubers, unrooted cuttings	8,--
Pachycentria succulenta , ant plant, big, a bit succulent leaves, red berries	16,--
Peapalanthus spec. Venezuela	8,--
Philodendron dubium , ant plant, nice creeper	6,--
Racinaea crispa , brown curly leaves	8,--
Racinaea crispa , green curly leaves	8,--
Rhododendron burtii , shining leaves, red hanging flowers	12,--
Rhododendron javanicum ? , beautiful orange flowers (unrooted cuttings, easy to root)	8,--
Rhododendron javanicum , true form, beautiful yellow/orange flowers, (unrooted cuttings, easy to root)	12,--
Rhododendron spec. 1 , Genting Highland, small grower, (unrooted cuttings, easy to root)	12,--

Worsleya procera (Syn. Worsleya rayneri) - The blue Empress of Brazil

Worsleya procera , strong, potted divisions of our motherplant, 40 cm +	99,--
Worsleya procera , strong, potted divisions of our motherplant, 65 cm +	139,--

Different tropical ferns

Belvisia spec. green leaf, Malaysia , long leaves with a little tail at the end	8,--
Belvisia spec. marmorated leaf , nice form coming from Malaysia	10,--
Bolbitis heteroclita , dark green creeping fern	10,--
Campyloneurum angustifolium , very long leaves	8,--
Crypsinopsis enervis (spec Sumatra 1) , very hard leaves, with beautiful pattern	18,--
Crypsinopsis platyphyllus , G. Murud, crown epiphyte in tall trees, young leaves have white crusty dots, later white spots	24,--
Crypsinus spec. Genting Highlands, long shiny leaves with nice pattern	24,--
Crypsinus spec. Gunung Murud , small fern wit spoonlike leaves, really a nice plant !	30,--
Crypsinus spec. , Borneo, similar to Cry. trilobus, but bigger and more ended leaves	20,--
Crypsinus trilobus (Phymatopteris) , Lake Toba, Sumatra, extremely hard leaves, unusual, grows very slow this plant is in my collection for over 30 years now	24,--
Davallia fejeensis , Cameron Highlands	6,--
Davallia parvula , medium size growing form	16,--
Davallia parvula , small size growing form	20,--
Davallia repens , Borneo, dwarf climbing fern, very rare	12,--
Davallia spec. Seychelles , grows bigger than D. repens	12,--
Davallia tyermanii , ex Botanical Garden Saarbrücken	12,--
Elaphoglossum blumeianum (spec. wavy/hairy leaves) , Borneo, Sabah, 1000 m	18,--
Elaphoglossum malayense (spec. Malaysia) , epiphytic species, glossy green leaves, medium sized grower	24,--
Elaphoglossum metallicum , metallic shining hard leaves, slow grower, big division from my motherplant	30,--
Elaphoglossum metallicum , seedlings, 10 cm	12,--
Elaphoglossum peltatum , fine leaf structure, very rare and unusual fern, only 5-7cm high leaves, creeping rhizome	25,--
Elaphoglossum peltatum , half closed leaf structure, very rare and unusual fern, creeping rhizome	35,--

Fadenia hookeri , nice small fern, forms plantlets at every leaf end	8,--
Humata angustata , small creeping fern, rare	14,--
Humata heterophylla , dwarf fern with two completely different leaf types	8,--
Lepisorus scolopendria , long sword fronds with quadrangular sori, Kinabalu region	14,--
Microgramma reptans , elongated leaves, fast grower, good terrarium plant	8,--
Microsorium scandens , Tamborine, Queensland, small creeping fern	10,--
Microsorium superficiale , Malaysia/Borneo, grows lithophytic	10,--
Microsorium whiteheadii , Central Sumatra, hard leaved fern, grows lithophytic on limestone cliffs	12,--
Polypodium aureum , fantastic fern, gets really big, very strong rhizomes	6,--
Polypodium spec. Crestate form , small growing species	10,--
Polypodium spec. , possibly longifolium, small growing species, narrow long leaves, Genting Highlands Malaysia	10,--
Pyrrosia abbreviata , ex Botanical Garden Nancy, creeper	10,--
Pyrrosia christi , Malaysia, Fraser Hill, beautiful leaf pattern, 2 different forms available	15,--
Pyrrosia hastata , half hardy fern coming from Japan	16,--
Pyrrosia lanceolata , long leaves, rhizome is climbing or hanging down	10,--
Pyrrosia lancifolia , ex Botanical Garden Leiden	10,--
Pyrrosia linearifolia „Urakoryu Jishi“, Short Crestate hairy leaves, slow grower	28,--
Pyrrosia linearifolia , beautiful, elongated hairy leaves, slow grower	16,--
Pyrrosia lingua "Crestate form" , mutation of lingua with crestate leaves, different forms available	18,--
Pyrrosia lingua "Mutant Form" , leaves similar to the cultivar Monstrifera !	18,--
Pyrrosia lingua "Variegata" , 25 cm leaves with some yellow stripes, creeping rhizome	12,--
Pyrrosia lingua , cold grower, elongated leaves	12,--
Pyrrosia longifolia , very long, succulent, hard leaves up to 40 cm, collected on Sulawesi	16,--
Pyrrosia nummularifolia , Malaysia, elongated leaf form, rhizome creeping or climbing, stays small, good for terrariums	10,--
Pyrrosia nummularifolia , Malaysia, round leaf form, rhizome creeping or climbing, stays small, good for terrariums	10,--
Pyrrosia spec. ? , creeper, 25 cm long, hard, succulent leaves	10,--
Pyrrosia spec. Cameron Highlands, grey hairy a bit succulent leaves	12,--
Pyrrosia spec. Cameron Highlands, growing lithophytic on stones	10,--
Pyrrosia spec. Seychelles , creeper, grows on palms, pale green leaves	10,--
Pyrrosia spec. Tambunan road , creeper, grows lithophytic on stones, easy grower	8,--
Quercifilix zeylanica , dwarf fern	10,--
Selliguea feei (syn. Polypodium vulcanum) , Mount Merapi, grows on top of G. Merapi at 2.200 m, very hard leaves	15,--
Selliguea lima, Cameron Highlands , fingerlike fronds	15,--
Spec. Terengganu, Malaysia , very nice and unusual, tall sawtooth leaves up to 35 cm	18,--
Vittaria lineata, Sumatra , shoe string fern, fine, long, hanging leaves up to 1 m	10,--
Vittaria spec 1 , overhanging broad leaves	10,--
Vittaria spec. Seychelles , narrow dark green leaves	12,--

Tillandsia

T. usneoides	6,--
T. usneoides fine form	7,--
T. usneoides, curled leaves	7,--

Cyclamen

Most of these plants can be grown in the garden all over the year, good sized bulbs	
Cycl. coum , hardy	6,--
Cycl. graecum , hardy if well protected	6,--
Cycl. graecum , very big plants	12,--
Cycl. hederifolium , hardy, very big plants	12,--
normal size, flowering size bulbs of 4 to 6 cm in diameter, grown from seed	

Hardy bog plants

Helonias bullata (swamp pink) , looks like an orchid in flower	10,--
Osmunda regalis (royal fern) , very big and showy plant	8,--
Pogonia ophioglossoides (snakemouth orchid)	12,--
Rhododendron canadensis , pink flowering, intermediate sized shrub	10,--
Vaccinium oxycoccos (bog cranberry) , prostrate shrub with big fruits and very small leaves	6,--

Offer: Plant assortment

Sarracenia flava , 10 seedgrown plants, different forms mixed	only 60,--
Sarracenia flava , 5 seedgrown plants, different forms mixed	only 34,--

All statements regarding hardyness and cultivation of all these plants are based on my own experience and on our climate conditions here in West Germany.

Shipping to countries inside the EU: How to order ?

No minimum order

Please send your inquiry via mail and we will check if all plants are available.

We will send a quotation with shipping costs together with our bank details IBAN and BIC Codes for the EU-payment.

Payment is also possible via paypal , please allow to add the fees to cover costs for this service.

After your payment, we will send out your plants as soon as possible.

We do usually add one or two extra plants to every order with more than three plants.

Shipping to countries outside the EU: How to order ?

No minimum order

It is the same way as shown above, but please check, if a Cites paper is necessary to import plants into your country !

Most countries do allow the import of plants only with a Phytosanitary Cert., if it shows that all plants are produced artificially (Japan, South Africa, USA and Thailand for example)

Only the real airmail costs are charged.

Phytosanitary certificate costs 20 ,--

Wholesale orders

If you are interested to buy plants in bigger amounts (5 or 10 of each), please inquire.

We usually offer big amounts of adult plants (mostly sarracenia and dionaea) over winter, in a special list. Minimum order is 100 plants.

If you are interested, we can send you the special list with wholesale prices.

This list is only valid from december to march, in the dormancy period of the plants !

All plants are sent bare root !

Seedlist

We also have an impressive seed list. All seeds are collected in our own collection and are mostly (open) hand pollinated. If you are interested, please ask at seed@carnivorsandmore.de

We only sell fresh seeds of the last growing season.

The Carnivorsandmore Team
Claudia + Christian (plants) and Sarah + Tim (seeds)
