S. alata "Upright Lid" dark pitchers with the lid standing upright	14,00
S. alata "Yellow, Bulbous Pitchers" , Jasper,Co, 50 cm bright yellow pitchers with a big head	18,00
S. alata Big Thicket Texas, MK A 61c, 30-40 cm	14,00
S. alata "Black Tube" , DeSoto Mississippi , 30-40 cm, A 06 ip very dark pitchers	16,00
S. alata "Black Tube" , Stone Co, Mississippi , 30-40 cm, own CK selection very dark pubescent pitchers	16,00
S. alata Dark Hood, Louisiana, MK A 10 large form	14,00
S. alata Pipeline, Rayburn Co, Texas, MK A 24	14,00
S. alata Purple throat x Night large dark colored pitchers	14,00
S. alata Red Lid, P+M, 30-40 cm tall yellow, veined pitchers	14,00
S. alata var. heterophylla , Washington Co., adult plants, divisions rare all green form, very pubescent	26,00
S. alata var. heterophylla , Washington Co., seedgrown plants, 12-15 cm rare all green form, very pubescent	18,00
S. alata, 40cm very colorfull plants grown from seed , all different	14,00
S. alata, Citronelle, Alabama yellow pitchers with fine red veins	14,00
S. alata, Desoto, Miss, 30 cm, seed grown from wild seed, pubescent plants mixed with non pubescent ones, different colors	12,00
S. alata, Nicholson Co., Mississippi large hooded form, orange/yellow pitchers	16,00
S. alata, Robertson Co., Texas, 30-40 cm bright yellow pitchers with wide opening	14,00

Sarracenia flava	
S. flava var atropurpurea , Blackwater State Forest, KU 13 ex J. Kutzer, 30-40 cm dark red pitchers	18,00
S. flava var. atropurpurea MK F27a , Blackwater State Forest, FL, 40 cm completely dark red pitchers, taller pitchers than MK 27c	18,00
S. flava var. atropurpurea MK F27b , Blackwater State Forest, FL, 40 cm completely dark red pitchers	18,00
S. flava var. atropurpurea MK F27c , Blackwater State Forest, FL, 40 cm completely dark red pitchers, very nice and rare form	18,00
S. flava var. atropurpurea PW F03 , Blackwater State Forest, FL, 40 cm completely dark red pitchers, very nice and rare form	18,00
S. flava var. atropurpurea , 30-40 cm strong veined, very dark red plant, pitchers turn completely red in summer	16,00
S. flava var. atropurpurea , Apalachicola Florida, MK F 137 very dark red Giant pitchers with upright lids	48,00
S. flava var. atropurpurea , Cook´s Bajou, Bay Co., 30-40 cm seems to have some intogression, because of its orange flower	18,00
S. flava var. atropurpurea , ex Marston Exotics, MK F 174 Adrian Slacks selected clone	24,00
S. flava var. atropurpurea , ex. J. Betz, KU 14 completely dark red pitchers	18,00
S. flava var. atropurpurea, PW F 02 , Blackwater State Forest, Fl, 40cm	18,00
S. flava var. atropurpurea , Santa Rosa Co, F280 Srba very dark red Giant pitchers	48,00
S. flava var. atropurpurea , selection CK dark red pitchers	20,00
S. flava var. atropurpurea , Wewahitchka FL., ex J. Ainsworth, MK F 56 all red pitchers	20,00
S. flava var. cuprea dark red lids, some veins	16,00
S. flava var. cuprea "Tall Slender Pitchers" , ex. Botanical Garden, Liberec very tall pitchers	16,00
S. flava var. cuprea (Coppertop x Ornata) ex M. Erbacher strong veined and good copper lid, very nice clone	14,00
S. flava var. cuprea (Coppertop) very heavy veined, large pitchers with strong veins, good copper lid in spring	14,00
S. flava var. cuprea (Coppertop) CT2 very large, veined, with a red line in the neck, dark copper lid in spring	16,00
S. flava var. cuprea MK F8 , 30 cm all green plant, with copper lid	16,00
S. flava var. cuprea veined (Coppertop Veined), ex Helmut Kibellis very nice veined coppertop	16,00
S. flava var. cuprea , ex. Erbacher very large lids with a red sploch in the neck	20,00
S. flava var. cuprea , ex. Kutzer, KU 117 tall plant, copper lid	16,00
S. flava var. cuprea , Exum North Carolina, MK F 131a good copper lid	16,00
S. flava var. cuprea , heavy veined dark lid, ex M. Brausse	16,00
S. flava var. cuprea , North Carolina, MK F 115 Olive copper top	18,00
S. flava var. cuprea , North Carolina, MK F 93 copper lid, red throat	20,00
S. flava var. cuprea , round lid, 30-40 cm	14,00
S. flava var. cuprea , Santee Costal Reserve, South Carolina	16,00
S. flava var. flava "Holley x Milton" , SL F 56 large pitchers with some veining	14,00
S. flava var. flava "Yellow Pitchers Fine Red Veining" , Saphony Creek, Vir., PW F 64, 30-40 cm bright yellow pitchers with some red veines	16,00
S. flava var. flava Giant Form , North Carolina, 40 cm, hardy very large form, robust pitchers	16,00

S. flava var. flava , 40 cm, hardy typical form, grown from seed	11,00
S. flava var. flava, 40cm, MK F 182E Fall Line, Edmund, South Carolina	16,00
S. flava var. flava, Allanton, Florida, 40 cm good colored clone	14,00
S. flava var. flava, Dahlia Bog Virginia, MK F 5 very large pitchers	16,00
S. flava var. flava , Dinwiddie, Virginia, MK F 6, 40 cm large pitcher opening and lid, very nice	14,00
S. flava var. flava , F 87 SL, near Shallote, Brunswick Co, NC, very green tall pitchers	16,00
S. flava var. flava, Giant 120+ very large pitching flava clone	16,00
S. flava var. flava, Green Swamp, NC., 40 cm large pitchers	14,00
S. flava var. flava , Honeysuckle Road, Harleyville, Dorchester Co clone 3, typical strong veined flava clone	14,00
S. flava var. flava , Honeysuckle Road, Harleyville, Dorchester Co clone 2, typical veined flava clone	14,00
S. flava var. flava , North Carolina, MK F 32 very large form	18,00
S. flava var. flava , Pender Co., Hampstead, NC., PW F 20, 30-40 cm	16,00
S. flava var. flava, Purple Throat , 40 cm, ex Filip Vanluyten	16,00
S. flava cv. Maxima, MK F 11 Very large pitchers, Adrian Slacks cultivar	16,00
S. flava var. maxima (Maxima Green) , 40 cm, hardy completely green, no veins	14,00
S. flava var. maxima Giant form , Honeysuckle Road, Harleyville, Dorchester Co, 40 cm, hardy very large pitchers, completely green, one of the best maximas !	20,00
S. flava var. maxima , 40 cm, Green Swamp, N.C ex Jonathan Newman	14,00
S. flava var. maxima, 40 cm , Green Swamp, North Carolina, PW F 27 All green pitchers	16,00
S. flava var. maxima , Shand's Bog, Virginia, PW F 59, 30-40 cm, wide open pitchers	16,00
S. flava var. ornata needle leaf phyllodia	14,00
S. flava var. ornata (x cuprea) tall plant, very good veined, own selected plant	16,00
S. flava var. ornata ex M. Brause strong veined flava with a large lid	16,00
S. flava var. ornata ex Potterton and Martin, 40 cm very tall pitchers with an nice venation	16,00
S. flava var. ornata, Bay Co., Sandy Creek compact good veined pitchers	16,00
S. flava var. ornata, Bay Co., Sandy Creek, 2nd site short, compact good veined pitchers, large lid	16,00
S. flava var. ornata, ex H. Cooper Cp short pitchers, very heavy veined	16,00
S. flava var. ornata, Liberty , Apalachicola, MK F 37 heavy veined, giant pitchers	18,00
S. flava var. ornata , Miramar, Broward Co., FL strong red veined pitchers, very red in throat over summer !	20,00
S. flava var. ornata, MK F 88 one of the best flavas, my favorite, strong veined with solid red throat	26,00
S. flava var. ornata, MK F 95 , Wewahitchka, Gulf, Co, Florida, 40 cm heavy veined, large lid	20,00
S. flava var. ornata , New Bern, Craven Co., SL F 130 good veined variant	16,00
S. flava var. ornata , Sandy Creek Bay Co., ex Derek Cl. Bate short, but very good veined pitchers	14,00

S. flava var. ornata, Wakulla Co, Fl compact growing flava form with a lot of red inside throat	16,00
S. flava var. ornata "Giant" , 30-40 cm very large pitchers with short lid, strong veined	16,00
S. flava var. ornata "Red Form" , Holley, Florida, Mk F 67 big lid, colorfull form	18,00
S. flava var. ornata "Round Lid"	14,00
S. flava var. ornata "Super Ornata" , 30-40 cm, hardy very strong veins, stocky plant, wide lid, very showy plant, but possibly a hybrid	20,00
S. flava var. ornata "Very Tall Pitchers" , 30-40 cm tall veined pitchers	16,00
S. flava var. ornata CK 2, hardy needle leaf phyllodia, very nice veined	14,00
S. flava var. ornata CK 4 , selected selected ornata good veined	14,00
S. flava var. ornata , ex. Phil Wilson, 40 cm strong veined pitchers getting red in summer	20,00
S. flava var. ornata Marshall Clone, 40 cm strong, nearly black veins, large lids	28,00
S. flava var. ornata , 40 cm short lid, course venation	14,00
S. flava var. ornata, ex Cooks Carnivors, MK F 87 giant dipping lid	38,00
S. flava var. ornata, MK F 208	16,00
S. flava var. ornata, MK F 247 bright red throat	20,00
S. flava var. ornata, Sandy Creek Road, Bay Co Ku 113	16,00
S. flava var. ornata , seedgrown plants 30-40cm seedlings from selected parents	14,00
S. flava var. ornata, Walton Co, Florida, MK F 272	18,00
S. flava var. ornata, Wewahitchka Florida, MK F 42	18,00
S. flava var. rubricorpora "Chris Heath Clone" , 40 cm very red pitchers with strong veines	16,00
S. flava var. rubricorpora Giant , MK F 20, Sumatra Florida dark red, tall pitchers and lid, ex J. Ainsworth F 37	18,00
S. flava var. rubricorpora Giant , MK F 21, Sumatra Florida dark red, tall pitchers and lid, ex J. Ainsworth F 42	18,00
S. flava var. rubricorpora MK F 39 , Wewahitchka, Florida starts off like ornata and reddens with age, strong patch	18,00
S. flava var. rubricorpora MK F 89 , North Carolina red tube, from North Carolina	20,00
S. flava var. rubricorpora MK F 97, Wewahitchka, Florida giant red tube	16,00
S. flava var. rubricorpora , ex. Alan Hindle dark red pitchers	18,00
S. flava var. rubricorpora "Burgundy" , MK F 26 Slack's clone, very good red pitchers	18,00
S. flava var. rubricorpora (x ornata) good veined red tube	16,00
S. flava var. rubricorpora F3, Apalachicola FL very huge pitchers with a heavy red spot in the neck, very good color, green veined lid	16,00
S. flava var. rubricorpora MK F 47 , 30 cm very red pitchers with strong veines getting red in summer, sometimes sold as var. ornata	16,00
S. flava var. rubricorpora RCP1, Apalachicola, FL very nice clone, pitchers completely dark red in summer	20,00
S. flava var. rubricorpora , Apalachicola, ex. Alan Hindle, MK F 19 red tube	16,00
S. flava var. rubricorpora , Apalachicola, MK F 105 red tube clone from Alan Hindle	16,00
S. flava var. rubricorpora , clone G, CK tall pitchers with a red splotch	16,00
S. flava var. rubricorpora , clone H, CK very dark red colored pitchers	16,00

S. flava var. rubricorpora, ex Dennis Baldson robust dark red pitchers	20,00
S. flava var. rubricorpora, ex Mike Brooks red tube getting very dark red in Summer	22,00
S. flava var. rubricorpora, ex Triffid Park massive red Tube	18,00
S. flava var. rubricorpora, ex. J.Kutzer KU 70 giant tred tube	18,00
S. flava var. rubricorpora, ex. R.v.Loenen Tall pitchers, red all over	16,00
S. flava var. rubricorpora, F 50 SL giant form, selected by Stefan Lenssen	16,00
S. flava var. rubricorpora, Giant form, ex Carow, Apalachicola, FL, 40 cm very tall dark red pitchers, no blotch in the neck	18,00
S. flava var. rubricorpora, Holley, FL, MK F 57, 40 cm very red with red throat, wide lid	16,00
S. flava var. rubricorpora, Liberty Co, Florida, MK F 30 very dark red tubes	24,00
S. flava var. rubricorpora, seedgrown plants from Marshall Clone very nice, dark veined red tubes, all different from seed	18,00
S. flava var. rubricorpora, Sumatra, Apalachicola FL, 40 cm, seedgrown typical red tube, different clones in stock	14,00
S. flava var. rubricorpora, Blackwater St. Rv., clone 50/1, CK selection big lid, very red throat	32,00
S. flava var. ruegelii, anthocyan free, Telogia FI, 30 cm all green form of var. ruegelii	24,00
S. flava var. ruegelii, ex. Ruedi Fürst, 30-40 cm very nice, large ruegelii clone	20,00
S. flava var. ruegelii, Milton, MK F 49, 40 cm very robust, large pitchers	18,00
S. flava var. ruegelii, MK F 17, Milton Florida, 40 cm copper tinged in early growth	16,00
S. flava var. ruegelii, MK F 53, Clone 6, Milton FI very robust typical form of ruegelii, very nice	18,00
S. flava var. ruegelii, near Colombia relic plant, from fall line	18,00
S. flava var. ruegelii, Sumatra FI. , ex wild seed all different clones, grown from wild collected seed, very large plants	14,00
S. flava var. ruegelii "Giant" ex Plantarara, 40 cm, hardy very large clone, typical ruegelii form	16,00
S. flava var. ruegelii, 40 cm, hardy very large clone, typical form	16,00
S. flava var. ruegelii, Ben Hill Co, Georgia, MK F 7 typical ruegelii, large pitchers	18,00
S. flava var. ruegelii, Big Meadow, Sumatra Florida, selection CK very tall pitchers with a big nectar roll	24,00
S. flava var. ruegelii, ex W. Wöhrle very large pitchers	20,00
S. flava var. ruegelii, Giant selection CK #49/1 very large pitchers, selected by myself	18,00
S. flava var. ruegelii, Reading University clone, MK F 143 large pitcher opening and lid, one of the largest var. ruegelli !	24,00
S. flava var. ruegelii, Telogia, Liberty Co, Florida plants grown from seed, all individuals	16,00
S. flava var. ruegelii, Telogia, Liberty Co, Florida, MK F 140 D very large pitchers, beautiful clone	20,00
S. flava f. viridescens (heterophylla), near Shallote, Brunswick Co., NC, 30-40 cm completely green form, very tall pitchers	22,00

Sarracenia leucophylla

S. leucophylla "Dark Red" , ex H. Kibellis reddish tall pitchers	16,00
S. leucophylla "10/2 SL Blackwater State Forest" own selection clone, with really fat nice contrasted pitchers	24,00
S. leucophylla "9/2 SL Perdido Alabama"	18,00
S. leucophylla "Alba # 5, Pink Lip" white, pink lipped , slender pitchers	24,00
S. leucophylla "Alba" very white tops, clear white tops with some green veines, random choice from different clones	24,00
S. leucophylla "Alba" almost clear white tops with some thin red veins, red flower, random choice from different clones	20,00
S. leucophylla "Alba", Baldwin Co, white/no red, slow growing clone of var alba, different from the other offered ones	18,00
S. leucophylla "Alba", seedgrown plants, 25-30 cm very white pitchers with some green,	Summer 19 18,00
S. leucophylla "Ben´s Bog" , Baldwin Co., iP L 19 very tall pitchers with white top	18,00
S. leucophylla "Big Pink Lip" Pink/white unusual looking pitchers	22,00
S. leucophylla "Bonbon" own selection , 30 -40 cm dark pink pitchers in autumn	20,00
S. leucophylla "Giant Autumn Pitchers", own selection very large pink/red and white pitchers, wide opening, colorful and nice	20,00
S. leucophylla "Giant White Pitchers", MK L 78, Santa Rosa Co extremely large pitchers with a wide opening	24,00
S. leucophylla "Green/White" bright pitchers with red veines	16,00
S. leucophylla "Green/White" , ex R. Schoch extremely large pitchers, with a high proportion of white	18,00
S. leucophylla "Helmut´s Delight" x Perdido AI , 30 cm, seedgrown plants seed grown plants, colorfull red/green seedlings, all different clones	12,00
S. leucophylla "Large Pitchers/Red Mouth" own selection,	18,00
S. leucophylla "Pink Upper Tube", MK L 43, ex. Martin Cheek pink very large slender pitchers	18,00
S. leucophylla "Pink Veins", SL L 28 red/white tall pitchers	18,00
S. leucophylla "Pubescent Pink", Perdido, AI., 40 cm nice pink colored pitchers, covered with hairs	14,00
S. leucophylla "Pubescent, completely covered with white hairs" stocky pitchers with a very strong pubescence, unusual	18,00
S. leucophylla "Purple and White Giant Form" , near Altha, Florida, seedgrown, 30 cm grown from seed, nice stongly contrasted pitchers, all different	16,00
S. leucophylla "Purple and White", Dear Park Al., MK L 12a giant autumn pitchers	18,00
S. leucophylla "Red and White, introgressed with alata ?", Citronelle, AI, MK L 39a pink flowers, very tall pitchers	16,00
S. leucophylla "Red Mouth" , own selection red/white with a red lip	16,00
S. leucophylla "Red SL 2" , 30-40 cm second clone of S. Lenssens red selections	18,00
S. leucophylla "Red Veines/White Top MK L 15" , Citronelle AL very white extremely tall pitchers, with thin red veines	20,00
S. leucophylla "Red" , MK L 29 tall red pitchers	16,00
S. leucophylla "Red/White" A1 , own selection, 30-40 cm robust autumn pitchers with a big lip	20,00
S. leucophylla "Red/White", ex Chaplin dark red, robust stocky pitchers	16,00
S. leucophylla "Red/White", ex Potterton & Martin tall pitchers	16,00
S. leucophylla "Red/White", ex Stan Lampard robust pitchers	14,00

S. leucophylla "Red/White", MK L 30 , 40 cm nice clone, coming from Viv Topham	18,00
S. leucophylla "Red/White" , nr. Seminole, Florida, 30 cm stocky plants	14,00
S. leucophylla "Red/White" , New Semiole, Fl., PW L 33 red/white, very fat pitchers	16,00
S. leucophylla "Schnell's Ghost" , 40 cm seedgrown plants, typical white top with green veins, all different clones	16,00
S. leucophylla "Schnell's Ghost" , 40-50 cm, divisions white top with green veins, a blush of pink in autumn	20,00
S. leucophylla "Short stocky Pitchers" , L 7 J. Betz, 30 cm very nice colorfull, stocky pitchers, really nice clone	16,00
S. leucophylla "Tarnok" typical leucophylla with unusual, filled double flower	20,00
S. leucophylla "Typical Form" , 40-50 cm, hardy typical form, from seed, mostly red/white	12,00
S. leucophylla "Very Large Autumn pitchers" , Mobile Co really fat pitchers in autumn	18,00
S. leucophylla "Very Red" , Eastpoint Franklin Co, SL L 56, 30 cm seedgrown many clones, very colorful plants	16,00
S. leucophylla "Very tall pitchers", Perdido AI grown from wild seed, 2 different clones	16,00
S. leucophylla "Very White/Pink Lip" , Perdido, Al., PW L 11	16,00
S. leucophylla "White Top" , ex Sryba very large white pitchers, different clones available	26,00
S. leucophylla "White Top" , possibly yellow flower tall, very white pitchers with no red	20,00
S. leucophylla "White/Green", SL L 10 extremely large pitchers, with a high proportion of white	18,00
S. leucophylla "Yellow Flower" , 40 cm white top with green veins, a blush of pink in autumn	16,00
S. leucophylla "Yellow Flower/Wavy Lid", PW , 40 cm tall white pitchers with a pink flush in autumn	16,00
S. leucophylla A2, White/Red , 40 cm purple / white, very large colorful pitchers	18,00
S. leucophylla A3 , own selection, 40 cm robust bright pitchers	16,00
S. leucophylla Big pink lip , seedgrown, 30-40 cm large pink pitchers, very close to the motherplant, all individuals	16,00
S. leucophylla Schnells Ghost seedgrown F2, sel clone large pitchers, turning red/pink in autumn	18,00
S. leucophylla var. viridescens (heterophylla), MK L 46 , 40 cm anthocyan free form, yellow flower, gets very huge	18,00
S. leucophylla var. viridescens (heterophylla), seedgrown , 20-30 cm anthocyan free form, yellow flower, gets very huge,	14,00
S. leucophylla X1 , own selection, white/red tall pitcher	18,00
S. leucophylla, A1 x Citronelle, own cross Red/White, perfect styled pitchers	14,00
S. leucophylla , Baldwin Co., Al, MK L 20a red/white, very tall colorfull pitchers	20,00
S. leucophylla , Baldwin Co., Al, MK L 20c red/white large pitchers	18,00
S. leucophylla, Citronelle Alabama , 40 cm different clones grown from wild seed #12	14,00
S. leucophylla, Citronelle Alabama , 50 cm giant white pitchers, ex St. McPershon	18,00
S. leucophylla , Conecuh Forest, Alabama, purple and white robust pitchers	22,00
S. leucophylla , Dear Park, Alabama, 40 cm robust red/white pitchers	18,00
S. leucophylla , Eglin Airforce Base, 40 cm seedgrown from wild seed, mostly white/green with some red	18,00
S. leucophylla , Garcon Point very heavy pitchers, with a pouty lip	24,00

S. leucophylla , Gas Station,Baldwin Co, Perdido Al.	16,00
S. leucophylla , Hurricane Creek, seedgrown plants, 40 cm white/green veined pitchers, looking promising all different clones	28,00
S. leucophylla, MK L 85 , Tibbee Al, large form, slender pitchers	20,00
S. leucophylla , Mobile Co., 40 cm very large autumn pitchers, red with some green	16,00
S. leucophylla , Paradise Bay, ex. J. Newman, 30-40 cm red/white tall pitchers	16,00
S. leucophylla, SL L 15 Stefan Lenssen cross, large pitchers	20,00
S. leucophylla , Splinter Hills Bog, 40-50 cm seed grown from wild seed, most red/white, many mostly very colorful clones	18,00
S. leucophylla , Splinter Hills Bog, Clone 8/3 SL, 40 cm pink/red pitchers, selected from wild seed	28,00
S. leucophylla , Sumpter Co, Near Americus, seedgrown plants 25-30 cm seedlings many different clones	12,00
S. leucophylla , Sumter Co., near Americus, ex wild seed white and red pitchers, all different clones	16,00
S. leucophylla , very large white pitchers	24,00
S. leucophylla , Walton Co. x Liberty Bristol, ex M. Sryba colourful, tall pitchers	16,00
S. leucophylla , White/Greenred, CK sel very tall pitchers	16,00
Sarracenia minor	
S. minor "Large Form" , Brunswick Co, 30 cm very large form, coming from Florida	14,00
S. minor "Typical" , 20-30 cm, hardy	12,00
S. minor var. minor f. viridescens, Clone 1, MK M 31A , Phil Sheridan crossing all green form of minor, green/yellow pitchers, resulting from a backcross with minor var. okee	22,00
S. minor var. minor f. viridescens, Clone 2, MK M 31B , Phil Sheridan crossing all green form of minor, resulting from a backcross with minor var. okee	22,00
S. minor var. okefenokeensis , Fitzgerald, Ben Hill Co, Georgia, SL M 05 tall slender pitchers	20,00
S. minor , Benhill GA., Fitzgerald, ex C. Dietz, 30 cm typical brownish pitchers, stocky plant	14,00
S. minor , Benhill Georgia, Fitzgerald x minor All Green, 20-30 cm nice colorful plants, if flower is self pollinated, all green plants will be come up in next generation	14,00
S. minor , Francis Marion National Park, Charleston Co, South Carolina, 20-25 cm seedgrown plants from wild seed, different clones	14,00
S. minor , Waccamaw, MK M 12 Brunswick Co, North Carolina	14,00
S. minor var. minor f. viridescens , seedgrown plants 20-30 cm own cross between clone 1 and 2	18,00
S. minor var. okefenokeensis typical form, seedgrown plants	14,00
S. minor var. okefenokeensis seedgrown plants from the famous Reading university clone (MK M 12) 25-30cm	16,00
S. minor var. okefenokeensis (Okefenokee Giant) , 40 cm very tall and extremely robust pitchers; can reach 1 m and even more	Summer 19 28,00
S. minor var. okefenokeensis (Okefenokee Giant), divisions , 30-40 cm very tall green pitchers; can reach 1 m	16,00
S. minor var. okefenokeensis Brown Head, divisions , 30-40 cm very tall brown headed pitchers, clone from Dr. König Germany	18,00
S. minor var. okefenokeensis , Georgia 20-25cm seedgrown plants from a very fat, brown headed pitching okee form,very promising !	14,00
S. minor var. okefenokeensis , North of Georgia, ex wild seed seedgrown plants, motherplant has beautiful colored pitchers	14,00
S. minor var. okefenokeensis , very large Form ex A. Amici 20-30 cm seedgrown plants, good color	14,00

S. minor var. okefenokeensis , Watchtower, (Observation Tower), Okee swamp park, ex K.Keller, 50 cm outstanding clone ! Giant big lidded pitchers	38,00
S. minor vor okefenokeensis "Red Eyes" , seedgrown plants, 30 cm large pitchers with red windows	18,00
S. minor , Brantley Co., Georgia, 20-30 cm, ex wild seed typical form, different clones from seed	14,00
S. minor, Fargo, Clinch Co , pale green plant	14,00
S. minor, Francis Marion NP, seedgrown plants seedgrown plants all different, nice fat pitchers	12,00
S. minor, Francis Marion NP, SL M 26 selected clone producing really fat pitchers	18,00
S. minor, Pine Mountains, Georgia, 20cm typical form	12,00
S. minor , Waycross Georgia, MK M 3, typical minor form	14,00
Sarracenia oreophila	
S. oreophila "Giant" , 40 cm very fat pitchers up to 60 cm	16,00
S. oreophila "Heavy Veined #2", SL O 4 selected clone from Stefan Lenssen	14,00
S. oreophila "Heavy Veined" , Sand Mountain, Alabama, 40 cm, hardy very tall pitchers, many veins	14,00
S. oreophila "Long Lasting Pitchers" , 40 cm Georgia, Phil Wilson PW OR 04/2	14,00
S. oreophila "Pink Lip", SL O 09 selected clone from Stefan Lenssen	14,00
S. oreophila "Red Throat" , 40 cm shows very red coloration inside the throat	14,00
S. oreophila "Slim Phyllodia", MK O 15 , Clay Co. NC, 40 cm unusual clone with short narrow phyllodia	14,00
S. oreophila "Tall Slender Pitchers" , 40 cm unusual form with slender, flava like pitchers (no hybrid)	14,00
S. oreophila Typical form ex Mazrimas, 40cm	14,00
S. oreophila Typical, 40 cm grows good in peat bogs	12,00
S. oreophila , Boaz Pond, Marshall Co, 40 cm tall pitchers, up to 60 cm	16,00
S. oreophila, Cherokee Co. SI O 14/3 selected be Stefan Lenssen	14,00
S. oreophila , Dikalb, Alabama	14,00
S. oreophila, ex Botanical Garden , Prag tall veined pitchers with a red mouth	14,00
S. oreophila, ex J.Kutzer typical form	14,00
S. oreophila, Marshall Co outstanding clone, very heavy viened and red throat	28,00
Sarracenia psittacina	
S. psittacina var okefenokeensis, "Big Reddish Plants" , Sandy Creek Road, Bay Co., FI colorful big rosettes	16,00
S. psittacina var. okefenokeensis "Big Globose Traps" , near Citronelle, Washington Co., AI, seedgrown wild collected seeds, dark red traps, nearly golf ball size, all different clones 10-12cm	14,00
S. psittacina var. okefenokeensis "Okee Giant" , seedgrown plants, 10-12 cm very big colorful rosettes	14,00

S. psittacina "Neon !" , all green plant, own cross bright yellow/green color, cross between all green Wewahitchka, Co x Baldwin, Co,	22,00
S. psittacina "Orange Flower" , 12-15 cm colorful plant with orange flower	16,00
S. psittacina "Red Plant" , 12-14 cm dark red, seedgrown plants	14,00
S. psittacina "Red/White" , 12 cm red pitchers with white windows	14,00
S. psittacina "Yellow Flower" , 10-15 cm glossy plant, very colorful, good size	16,00
S. psittacina var okefenokeensis "Giant" , Liberty Co., Sumatra, 10-12 cm big growing plants, slender pitchers, seedgrown plants ,	16,00
S. psittacina var. heterophylla, Wewahitchka, FI , 10-12 cm, seedgrown anthocyan free form, yellow flower	14,00
S. psittacina var. heterophylla, Wewahitchka, FI , 12-15 cm anthocyan free form, yellow flower	18,00
S. psittacina var. okefenokeensis f. viridescens , Sandy Creek Road, Bay Co, Florida 10-14 cm seedgrown plants, all green giant form, can get 35 cm diameter easily	22,00
S. psittacina var. okefenokeensis, "Red/White" Splinter, Baldwin Co., Al, SL P 17/1 very large clone, selected by Stefan Lenssen	18,00
S. psittacina var. okefenokeensis , Citronelle Alabama, SL P 15/1 big, massive heads, selected by Stefan Lenssen	18,00
S. psittacina var. okefenokeensis, Clone 1 , 1985 imported from Lee's botanical garden, Miami extremely large growing rosettes, the biggest ones in my collection, up to 50 cm	28,00
S. psittacina var. okefenokeensis, Clone 2 , 1985 imported from Lee's botanical garden, Miami extremely large growing rosettes, the biggest ones in my collection, up to 50 cm	28,00
S. psittacina var. okefenokeensis, Clone 3 , 1985 imported from Lee's botanical garden, Miami extremely large growing rosettes, the biggest ones in my collection, up to 50 cm	28,00
S. psittacina var. okefenokeensis, Dark red plant, Liberty Co seedgrown plants from selfed clone 13/1, very dark red and large plants	16,00
S. psittacina var. okefenokeensis, DeSoto Miss. #18 red plant, heavy fenestrated	14,00
S. psittacina var. okefenokeensis, seedgrown plants from Lees bot gardens clones, 12cm red pitchers forming giant rosettes	16,00
S. psittacina, Apalachicola Florida, # 19 KP	14,00
S. psittacina, Blackwater State forest , Bear Lake, FI. # 20, 10- 12 cm wild collected seed, Nr. 20, all different clones	14,00
S. psittacina , Blackwater State forest, FI, 12-15 cm wild collected seed, Nr. 21, all different clones	14,00
S. psittacina , Wewahitchka FI, seedgrown 10cm, colorfull plants	14,00
Sarracenia purpurea	
S. purpurea ssp. purpurea , 8-10 cm hardy bog plant, forms dark red colored clumps	10,00
S. purpurea ssp. purpurea "Extremely dense form" , 10-12cm, hardy forms clusters of medium sized, brownish pitchers	14,00
S. purpurea ssp. purpurea "Nearly Veinless Plant" , 10-12 cm, Moss Lake, Grey Co, Ontario, Canada pale yellow plant, slow grower, motherplant has pure yellow flowers !	16,00
S. purpurea ssp. purpurea "Switzerland" , 12-14 cm hardy, forms very big clumps of pitchers up to 60 cm wide,	14,00
S. purpurea ssp. purpurea "Veinless Plant" , seedgrown, 12-14 cm pale yellow plants, completely veinless even in full sun, bright orange in winter	24,00
S. purpurea ssp. purpurea f. heterophylla , 10-12 cm anthocyan free plants, hardy bog plant	14,00
S. purpurea ssp. purpurea var. heterophylla x purpurea Veinless , 15cm pitchers are veinless and green/yellow colored	20,00
S. purpurea ssp. purpurea var. ripicola , Dorcas Bay, Bruce Co, Ontario, 10-14cm grows on limestone ground at the natural location	16,00
S. purpurea ssp. purpurea var. stolonifera , 8-10 cm very long pitchers, forming big clumps with time	16,00

S. purpurea ssp. purpurea , 20-25 cm very large plants, hardy bog plant	15,00
S. purpurea ssp. purpurea , Bongor Maine, 12-14 cm, hardy grows in a bog close to the Canadian border	14,00
S. purpurea ssp. purpurea , Tanersville, Monroe Co, Pennsylvania, 10-14 cm dark red very good contrasted and veined plants	16,00
S. purpurea ssp. venosa seedgrown plants, red veined plants	12,00
S. purpurea ssp. venosa , Green Swamp NC, 10-12cm Seedgrown plants, red form	14,00
S. purpurea ssp. venosa , Sheely Pond, Edmond, Lexington Co, 10-12 cm relic plants, fall line, very red plants !	16,00
S. purpurea ssp. venosa "All Red" North of Supply (Green Swamp) N.C. 10-12cm seedgrown plants, very red form	14,00
S. purpurea ssp. venosa "Dark red, Ruffled Lid" , 12-14cm seedgrown plants, very red form with ruffled lids	20,00
S. purpurea ssp. venosa Ruffled Lid x Wavy Lid, 10-12 cm dark red wavy lid plants	16,00
S. purpurea ssp. venosa var. pallidiflora (antho free) , 10-12 cm the true anthocyan free form of P. venosa, very good grower	14,00
S. purpurea ssp. venosa var. pallidiflora (antho free) , 15-20 cm the true anthocyan free form of P. venosa, very good grower	16,00
S. purpurea ssp. venosa , Carteret Co, North Carolina, 10-14 cm seedgrown plants from wild seeds	14,00
S. purpurea ssp. venosa , Old Dock, Columbus Co., 10-12 cm seedgrown plants, very red pitchers	14,00
S. purpurea ssp. venosa , Reedy Creek, Caroline Co., Virginia, 12-14 cm seedgrown plants, wavy lids and fantastic color, one of my favorites !	16,00
S. purpurea vor venosa "Minor Black" , ex T. Carow compact growing, very dark red form with white hairs inside the pitcher	16,00
S. purpurea ssp. venosa var. burkei "Chipola Giant" , 12-14 cm completely red plants, up to 40 cm diameter	20,00
S. purpurea ssp. venosa var. burkei "Completely Veinless Plants" , seedgrown plants 10 cm no veins at all, gets completely orange in winter, similar to Melissa Mazur Clone	18,00
S. purpurea ssp. venosa var. burkei "Completely Veinless Plants" , seedgrown plants 15-20 cm no veins at all, gets completely orange in winter, similar to Melissa Mazur Clone	28,00
S. purpurea ssp. venosa var. burkei f. Luteola x burkei "Veinless" pink plant, good grower, seedgrown plants	14,00
S. purpurea ssp. venosa var. burkei f. luteola , 10-12 cm all green burkei, big globose traps, seedgrown plants	16,00
S. purpurea ssp. venosa var. burkei f. luteola , 15-18 cm all green burkei, big globose traps, divisions	20,00
S. purpurea ssp. venosa var. burkei , 10-12 cm good grower, unusual colored flower	10,00
S. purpurea ssp. venosa var. burkei , Walton Co., Fl, 10-12 cm seedgrown plants, all different clones	14,00
S. purpurea ssp. venosa var. montana Leiden x KPC M.Srba cross strong veined plants, good grower, seedgrown plants	20,00
S. purpurea ssp. venosa var. montana Mk pv19 x KPC M.Srba cross strong veined plants, good grower, seedgrown plants	20,00
S. purpurea ssp. venosa var. montana , Oakey Mountains, Rabun Co., Georgia, 8-10 cm very colorful green/deep red veined pitchers	15,00
S. purpurea ssp. venosa var. montana, Transylvania Co , 8-10 cm very colorful green/deep red veined pitchers	18,00
S. purpurea ssp. venosa var. burkei f. luteola x venosa f. yellow flower , seedgrown 12-14cm beautyfull plants with bright red and fat pitchers, which are completly pubescent, super plants !	18,00
S. purpurea ssp. venosa Reedy Creek x montana Jackson Co , 12-14 cm seedgrown plants, own cross, really nice plants with very wavy lids	18,00

S. purpurea ssp. venosa var burkei f. luteola x purpurea var. purpurea "Veinless form" 10-14 cm seedgrown plants, some are plain green some show some veins	16,00
S. purpurea ssp. venosa "Wavy lid" x ssp. venosa "Buddha Belly" 10-12 cm red wavy lids	18,00
Sarracenia rubra	
S. rubra ssp. alabamensis Red Form, RvL RA 02 , 30 cm red form, good grower	12,00
S. rubra ssp. alabamensis , 30 cm big yellow pitchers, good autumn grower	12,00
S. rubra ssp. alabamensis, Autauga Co, divisions or seedgrown plants rare location, plants are very different from other locs	20,00
S. rubra ssp. alabamensis , Chilton, Alabama, 30 cm, good grower big yellow pitchers	12,00
S. rubra ssp. alabamensis , Thorsby, Alabama, 30 cm, good grower big yellow pitchers	12,00
S. rubra ssp. gulfensis "Dark Tall pitchers" , ex J. Welham, 30 -40cm very dark pitchers, which last over winter	16,00
S. rubra ssp. gulfensis "Giant Form" ex T. Carow very dark, extremely tall pitchers, very showy plant	16,00
S. rubra ssp. gulfensis "Stocky" , 15-20 cm small growing gulfensis type, stocky form ex. E. König	12,00
S. rubra ssp. gulfensis "Wavy Lid Giant Form" , iP R 27 dark red, tall pitchers	16,00
S. rubra ssp. gulfensis f. luteoviridis, (heterophylla) , Yellow River, Florida anthocyan free form, yellow flower	12,00
S. rubra ssp. gulfensis, North of Shoal River ,Walton Co, PW RG 11 Stocky plants	12,00
S. rubra ssp. gulfensis, Yellow River, MK RG 5 , 20-30cm grown from wild collected seeds	12,00
S. rubra ssp. ionesii , 25-30 cm typical form	14,00
S. rubra ssp. ionesii, Caesar's Head , Greenville Co. South Carolina slender pitchers, very dark autumn coloration	14,00
S. rubra ssp. ionesii , McLures Bog, Henderson Co, North Carolina, 20-30 cm short, stocky pitchers	14,00
S. rubra ssp. rubra "All Green" 20 cm, White Water Creek, Taylor Co, Georgia all green form, short stock pitchers	18,00
S. rubra ssp. rubra "Ancestral Form" , Crawford Co, Georgia, PW RR 01	14,00
S. rubra ssp. rubra "Ancestral Form" , Sheely Pond, Edmond, Lexington Co, SC relic plant, Fall line	14,00
S. rubra ssp. rubra "Long Lidded Form" , North Carolina, 15-20 cm, ex wild seed seedgrown plants, all different clones	12,00
S. rubra ssp. rubra "Long Lidded Form" , North Carolina, MK RR 4, 20-30 cm tall plant with extremely long lids	12,00
S. rubra ssp. rubra , 20 cm ex. M. Erbacher	10,00
S. rubra ssp. rubra , Ash Co., 20 cm nice typical form	12,00
S. rubra ssp. rubra , near Shallote, Brunswick Co., 15-20 cm short stocky plants	12,00
S. rubra ssp rubra, nr. Sneads Ferry, Onslow Co, NC very nice small rubra	12,00
S. rubra ssp wherry , 20-25 cm typical form	12,00
S. rubra ssp. wherry "Chatom Giant" , MK RW 6 forms pitchers up to 60 cm	14,00

S. rubra ssp. wherry "Large Wavy Lids" , Escambia Co, Alabama, MK RW 7 stocky pitchers a bit pubescent	10,00
S. rubra ssp. wherry "Orange Flower" , 20-30 cm typical wherry with an orange flower	12,00
S. rubra ssp. wherry "Wavy Lid" , 25-30 cm good grower	12,00
S. rubra ssp. wherry "Yellow Flower" , 30 cm yellow flowered form	10,00
S. rubra ssp. wherry x alabamensis, 25cm Virgous yellow plants	12,00

All Sarracenia offered, are strong, mainly flowering sized divisions, established in pots for one year (or fresh divided in winter or spring).
The size given is the minimum size they have at the moment of sale or before cutting.

Sarracenia Hybrids

S. (leucophylla var. luteoviridis x courtii anthocyan free) x self , 20-25 cm cm, All Green ! very nice, easy and big growing all green hybrid	12,00
S. flava MK F 88 x flava heterophylla , 30cm good colored plants	12,00
S. flava Super Ornata x Rubra , strong veined, compact plant	12,00
S. flava var. rubricorpora x flava var. heliamphoroides , 25 cm will be interesting to create hybrids with	14,00
S. leucophylla "Pink/Red" x Leah Wilkerson , 20-30cm own cross	14,00
S. leucophylla Helmut's Delight x Leah Wilkerson , seedgrown plants, all different	14,00
S. leucophylla Sta. rosa Co x Leah Wilkerson seedgrown plants, all different clones	14,00
S. leucophylla var. luteoviridis x courtii anthocyan free , 25-30 cm, All Green ! very nice, easy and big growing all green hybrid	12,00
S. leucophylla x alata different clones from seed	10,00
S. leucophylla x oreophila nice plant, easy grower	16,00
S. leucophylla AF x alata AF , 30cm own cross, all green, very pubescent plants	16,00
S. moorei Leiden x Leah Wilkerson , seedgrown plants, all different	14,00
S. oreophila x flava , 30 cm, hardy similar to oreophila, easy grower	14,00
S. psittacina f. heterophylla Sandy Creek Giant x minor f. heterophylla , 15cm, All Green ! seedgrown, all green plants S. x formosa with the psittacina Giant as parent	14,00
S. psittacina f. heterophylla x minor f. heterophylla , 10-14 cm, All Green ! seedgrown, all green S. x formosa, very rare	14,00
S. x alata "Night" x leucophylla x alata Night , 30-40cm own hybrid, nearly black pitchers with white windows	16,00
S. x Brooks Red , 40 cm good grower, dark red pitchers	14,00
S. x Catesby "Pubescent" 30 cm Flava x purp ssp venosa, large pitchers	14,00
S. x catesby "Red Plant" , 20-25 cm, seedgrown dark red stocky plants	12,00
S. x excellens Giant Pink colorfull pitchers up to 50 cm	16,00
S. x gilpinii AF large growing, all green plant	16,00
S. x Green Monster all green form of x excellens, involving minor var. okeefenokeensis, all green	18,00

S. x Juhatip Soper, 30 cm very red/pink pitchers	12,00
S. x Leah Wilkerson x self, seedgrown, all different	14,00
S. x leucophylla AF x flava ruegelii Telogia AF, 30 cm all green plants	16,00
S. x leucophylla x psittacina, Citronelle AI very colorfulfull traps	12,00
S. x leucophylla x rubra, 20 cm very red plants	12,00
S. x mitchelliana "All Green" own cross, purp f. luteola x leuco all green, all green plants, nice ruffled lids	16,00
S. x mitchelliana "All Green" own cross, purp f. pallidiflora x leuco all green, all green plants, nice ruffled lids	16,00
S. x Mitchelliana "Red", 20 cm seedgrown plants, all different clones	14,00
S. x Mitchelliana AF x leuco AF, 15x20 cm own cross	14,00
S. x moore "White Top", 30-40 cm own cross	16,00
S. x moorei very large form, green with some red veins	12,00
S. x moorei yellow pitchers, red veins, with a red patch	12,00
S. x moorei "Adrian Slack" only a few plants in stock	75,00
S. x moorei "All Red", 30/40 cm all red pitchers	16,00
S. x moorei "Leah Wilkerson" only a few plants available	50,00
S. x moorei "Leiden", 30-40 cm nice more with a red splotch	24,00
S. x moorei "Red/White", 30-40 cm own cross	14,00
S. x moorei All Green, anthocyan free form, 40 cm, All Green ! own cross, flava All Green Shallote x leuco L46 Mk, green/white pitchers	14,00
S. x moorei, Cedric Azais L 41 tall pitchers with red blotch	20,00
S. x moorei, Elisabeth H 89 MK tall colorful pitchers	24,00
S. x psittacina x leucophylla "Giant clone", Citronelle, AI selected Clone, 30 cm pitchers	35,00
S. x swaniana Red Plants	14,00
S. x Victoria Morley	16,00
S. x Brook´s Hybrid MK H7, 40-50 cm should be one of the tallest Sarracenias at all	16,00

Nepenthes

N. adrianii, Java, 10-12 cm, seedgrown	24,00
N. adrianii, Java, 6-8 cm, seedgrown	18,00
N. alata „Typical“, cutting 20 cm	15,00
N. albomarginata „All Red Plant“, red plant and pitcher, 8 cm, seedgrown	16,00
N. albomarginata „Green/speckled pitchers“, Matang Area, Sarawak, 10-14 cm, seedgrown	14,00
N. albomarginata „Green/speckled pitchers“, Matang Area, Sarawak, 30 cm, seedgrown	28,00
N. albomarginata „Green/speckled pitchers“, Matang Area, Sarawak, 8-10 cm, seedgrown	12,00
N. ampullaria „Tricolor“, cuttings 15-20 cm, green with red spots	36,00
N. ampullaria Green Giant, Tayeve, Irian Jaya , cutting, 15-20 cm	32,00
N. ampullaria green pitchers, seedgrown, 10-15 cm	12,00
N. ampullaria Hot lips, cuttings 15-20 cm	36,00
N. ampullaria red speckled pitchers, seed grown, 20-25 cm	20,00

N. ampullaria red speckled pitchers, seedgrown 12-14 cm	16,00
N. ampullaria red speckled pitchers, seedgrown 8-10 cm	12,00
N. ampullaria, all different clones, very nice red speckled or tricolor pitchers, 25-30 cm	38,00
N. aristolochides, G.Tudjuh, 5-7 cm, seedgrown	42,00
N. bellii, 8-10 cm	16,00
N. bongso (or carunculata), 8-10 cm, seedgrown	20,00
N. burbridgeae, Mt. Tambuyukon, 6-8 cm, seedgrown	28,00
N. burkei, 8-10 cm	14,00
N. campanulata, 6-8 cm	29,00
N. chania (404 BCP), 10-14 cm	22,00
N. chania (404 BCP), 8-10 cm	18,00
N. dubia (Red), Sumatra, 5-7 cm, seedgrown	35,00
N. eymae, 10+cm, Sulawesi, seedgrown	65,00
N. eymae, 6-8 cm, Sulawesi, seedgrown	48,00
N. fusca, Tambunan Road, 8-10 cm, seedgrown	16,00
N. glabrata, 10-14 cm	20,00
N. glabrata, 8-10 cm	16,00
N. hurrelliana, 12-14 cm, Gunung Murud, seedgrown	185,00
N. inermis, seedgrown, Sumatra, 5-6 cm	34,00

N. thorellii (true) x hamata, 8-10 cm, seedgrown	18,00
N. thorellii (true) x veitchii candy, 30 cm, seedgrown	28,00
N. veitchii „Murud Striped“ x campanulata, seedgrown, 6-7 cm	22,00
N. veitchii „Murud Striped“ x campanulata, seedgrown, 7-10 cm	28,00
N. ventricosa x ?, 10-12 cm	10,00
N. ventricosa x lowii Red pitcher (tc), 12-15 cm	38,00
N. ventricosa x mira, 8-10 cm, seedgrown	12,00

Most of our offered nepenthes are grown from seed !

All nepenthes plants listed above, are grown and acclimated in our greenhouse. So you can be shure to get

a plant, what used to grow under hard conditions !!!

Heliamphora

H. minor Auyan Tepui, 10-14 cm, big plant clumps	35,00
H. minor Auyan Tepui, 5-6 cm, adult plant clumps	14,00
H. minor Auyan Tepui, 8- 10 cm, adult plant clumps	20,00
H. nutans, 12-15 cm	Summer 18,00
H. pulchella Akopan , 7-8 cm, small form, dark red, hairs inside traps	24,00

Heliamphora Hybrids

H. minor x heterodoxa, 8-10 cm, adult nice multigrowth plant, good grower, similar to minor	13,00
H. minor x heterodoxa, 12 cm, adult nice multigrowth plants, good grower, similar to minor	20,00
H. minor x heterodoxa, 12-15 cm, adult large plants, good grower, similar to minor	25,00

Pinguicula (not hardy)

We deliver half adult plants, the size can be different because of dormancy of plants .

P. agnata	5,00
P. agnata Scented Flower	6,00
P. agnata Yellow Long Leaf	6,00
P. ehlersae, violet Flower	6,00
P. gigantea, the biggest species of the whole genus	10,00
P. jamauvensis, small growing species, violet flowers	5,00

Pinguicula Hybrids (not hardy)

P. colimensis x moctezumae	7,00
P. jamauvensis x moctezumae	5,00

Pinguicula (hardy)

P. fiorii x grandiflora var. rosea	8,00
P. grandiflora var. pallida, Mijoux	12,00
P. grandiflora var. rosea, Grenoble	15,00
P. grandiflora x vulgaris	8,00
P. grandiflora, nice blue flowers	6,00
P. longifolia ssp. ? Zuccarello, Italy	10,00
P. macroceras ssp. northensis, Californian Mountains	8,00
P. macroceras, japanese origin	10,00
P. spec. Nepal, should be vulgaris	10,00
P. spec. Rio Ara, red leaves, maybe a hybrid involving P. grandiflora	8,00
P. vallisneriifolia x grandiflora	6,00

We deliver flowering size plants or semi-adult winter buds, no gemmae !

Dionaea

D. muscipula "Adentata", upright grower nearly toothless traps	28,00
D. muscipula "Akai Riu", all red plants	7,00
D. muscipula "Alien" the one with the extraterrestrial smile	12,00
D. muscipula "All Red"	8,00
D. muscipula "ARPC", good grower	7,50
D. muscipula "Australian Red Rosetted", large redtraps, flat growing	10,00
D. muscipula "Australian"	10,00
D. muscipula "B-52", said to have the biggest traps of all clones	9,00
D. muscipula "BCP 1343", cupped traps long petiols	16,00
D. muscipula "BCP 1343/21", Erect Cup Trap	12,00
D. muscipula "BCP Akai Riu Clone D44", very dark red, flat rosettes	8,00
D. muscipula "BCP Akai Riu Clone F12", upright, coarse teeth	7,50
D. muscipula "BCP Akai Riu Clone F15", upright, good red, long teeth	7,50
D. muscipula "BCP Akai Riu Clone F3", very big, dark red	8,00
D. muscipula "BCP Akai Riu Clone F5", very big, dark red, piranha teeth	8,00
D. muscipula "BCP Akai Riu Clone F8", dark red, flat traps	8,00
D. muscipula "BCP Akai Riu Clone F9", large, dark red traps and upright	7,50
D. muscipula "BCP Clone Z 11", forms giant traps	10,00
D. muscipula "BCP Clone H-15", upright traps with a red blotch inside the trap, good grower	7,50
D. muscipula "BCP Clone X 11", nice clone with triangular teeth	9,00
D. muscipula "BCP Crazy Cup Trap", cupped traps	16,00
D. muscipula "BCP Kim Il Sung", very stange growing clone	18,00
D. muscipula "BCP Kim Young II"	18,00
D. muscipula "BCP Red Fused Petiol Clone F4 BCP" dimorphic, leaf and trap are connected	10,00
D. muscipula "BCP X 3", traps with dentate teeth	9,00
D. muscipula "Bear Trap", upright grower, big traps	10,00
D. muscipula "Big Behemoth"	16,00
D. muscipula "Big Mouth", flat big red traps, medium sized plants	7,00
D. muscipula "Big teeth, red Giant", very large traps, flat growing	10,00
D. muscipula "Bimbo", coming from Dr. König, very big traps	10,00
D. muscipula "Biohazard 1" still <u>not</u> stable clone, but very extreme and nice mutation, but can drop back to normal form !	20,00
D. muscipula "Biohazard 2", new clone, similar to Biohazard, more green traps and stabil	28,00
D. muscipula "Blezers Giant Form Dm 06" typical form, very big traps	9,00
D. muscipula "Bohemian Garnet" (Red Sawtooth), flat growing, red sawtooth traps	7,50

D. muscipula "Boomans Mutant", US Clone, red traps upright growth	14,00
D. muscipula "Carolina state Beach park", location plants, very nice typical form	9,00
D. muscipula "Cerberus" mutant form what forms mostly 3 traps per leaf	16,00
D. muscipula "Clayton's Volcanic Red", deep red form	8,00
D. muscipula "Clumping Cultivar", flat, short leaves, many traps, beautiful clone	7,00
D. muscipula "Coquillage", flat growing, nearly no teeth, 6-8 cm	10,00
D. muscipula "Creeping Deeth" upright traps of big size	12,00
D. muscipula "Crocodile", green/red traps and fused petioles	10,00
D. muscipula "Cropped Teeth Blotchy"	8,00
D. muscipula "Cross Teeth China" Mutant form coming from a Tc lab in China	8,00
D. muscipula "Cross Teeth", different from the usual offered clones from other sources	8,00
D. muscipula "Cup Trap new Clone", much better than the old clone, forms big clusters of traps	10,00
D. muscipula "Cup Trap", very nice plants available	8,00
D. muscipula "DC/XL", US Clone, very large	18,00
D. muscipula "Dent long"	7,50
D. muscipula "Dentata", one of the oldest clones, original from Germany	7,00
D. muscipula "Dentaté", nice form with little triangle teeth, very different from clone Dentata	8,00
D. muscipula "Destroyer", very large clone selected by Klaus Ivanez	20,00
D. muscipula "Dingley Giant", nice colored clone	7,50
D. muscipula "Dm 30 All green" green, flat rosettes	9,00
D. muscipula "Eyelash", big traps with very long teeth	12,00
D. muscipula "Fake Dracula", green dimorphic, very nice teeth. Not the real clone !	8,00
D. muscipula "Fangzahn", flat traps with long teeth	12,00
D. muscipula "Fondue", mutant form with deformed traps	16,00
D. muscipula "Freaky Star", double ribbed trap, mutated clone	14,00
D. muscipula "FTS Archangel", US clone, very red traps	16,00
D. muscipula "FTS Flaming Lips", very large colorful traps	24,00
D. muscipula "FTS Maroon Monster", US clone, dark red traps	12,00
D. muscipula "FTS Mirror x Mirror"	14,00
D. muscipula "FTS Towering Giant"	14,00
D. muscipula "Fused Tooth Extreme"	9,00
D. muscipula "G 14, Dirk Venham's Giant", good contrasted big traps	9,00
D. muscipula "G 16", Slack's giant, one of the biggest clones	10,00
D. muscipula "G 3" nearly toothless flat form, very big green traps formed like a saddle, showy !	16,00
D. muscipula "G 35", very big, all green variant	8,00
D. muscipula "GB 01", upright nearly toothless rosettes, ex Guillaume Bily	16,00
D. muscipula "Giant Microdent", very large growing plants	20,00
D. muscipula "Gj Basmati",	24,00
D. muscipula "Green Fused Teeth"	12,00
D. muscipula "Green Microdent" new clone, pale green color	20,00
D. muscipula "Green Sawtooth", completely green plant	8,00
D. muscipula "Green Swamp, NC", location plant	10,00
D. muscipula "Green Wizard", similar to coquillage but green, flat rosette	12,00
D. muscipula "Grüner Findling", all green plant	10,00
D. muscipula "Günter Seiter's Clone", very nice selected typical clone	8,00
D. muscipula "H-52, BCP", green trap, with a red blotch inside	8,00
D. muscipula "Haircomb", similar to alien	10,00
D. muscipula "Harmony", very nice mutation, green traps, good grower, nearly no teeth in summer	16,00
D. muscipula "Jaws Smiley", similar to Alien, but more red inside traps	18,00
D. muscipula "K1, Czech Giant"	9,00
D. muscipula "Kayan", extremely long petioles	10,00
D. muscipula "Korean Melody Shark Teeth", very slow, upright growing, very reduced plant	14,00
D. muscipula "La grosse a GuiGui", G. Bily's giant form, upright growing, biggest clone in my collection !!!	12,00
D. muscipula "Louchapates", 6-8 cm, good grower, very nice traps	10,00
D. muscipula "Low Giant" flat very big traps	8,00

D. muscipula "Master of Disaster", forms clusters of traps, not stabl !	18,00
D. muscipula "Microdent Seedgrown ", very close to the original, with some color variation	10,00
D. muscipula "Microdent", green/orange flat growing plants which show nearly no teeth,	12,00
D. muscipula "Mirror" mutant form, forms 2 wings outside the trap	16,00
D. muscipula "Moon Trap"green, wide open traps	14,00
D. muscipula "Olive Green", flat, dark green with very little red in it	7,50
D. muscipula "Pale Yellow", ex Guillame Byli, yellow green plants	10,00
D. muscipula "Paradisnia", orange colored traps	7,50
D. muscipula "Petite Dragon", all red clone	8,00
D. muscipula "Phalanx", big traps with extremely long teeth	14,00
D. muscipula "Pink Venus", flat, dark red rosettes	12,00
D. muscipula "Pluto # 17", small growing clone	10,00
D. muscipula "Predator",very large clone selected by Klaus Ivanez	20,00
D. muscipula "Pygmy", small growing clone with nice color	14,00
D. muscipula "Quadrotrap", traps are nearly quadratic	10,00
D. muscipula "Rabbit teeth", green traps, very large plants with very robust teeth	12,00
D. muscipula "Raptor", small growing plant with strong teeth	14,00
D. muscipula "Red Burgundy" deep red traps, very big clone	9,00
D. muscipula "Red Hole", small clone, cup shaped traps	12,00
D. muscipula "Red Line", big upright standing traps, really big clone	9,00
D. muscipula "Red Piranha"	10,00
D. muscipula "Red Road / Oxford", location plant	9,00
D. muscipula "Red Shark Teeth", very dark red, traps with triangular teeth, 8-10 cm	10,00
D. muscipula "Red/Green", colorful clone, upright growing	7,50
D. muscipula "Rose", does never form any traps !	Summer 19 12,00
D. muscipula "Rouge Sombre", very colorfull	10,00
D. muscipula "Royal Red", very dark red, dimorphic rosettes	10,00
D. muscipula "Sawtooth", big traps, good grower	8,00
D. muscipula "Scarlatine", green/reddish traps, with dark red spots onto	14,00
D. muscipula "Schuppenstiel 1", 8-10 cm, strong mutation on the leaves, medium sized plants	10,00
D. muscipula "Schuppenstiel 2", 8-10 cm, strong mutation on the leaves, medium sized plants	10,00
D. muscipula "SD Draco", US clone, red bronce traps	12,00
D. muscipula "Shark Teeth", traps with shark teeth	7,50
D. muscipula "Short Teeth", very short teeth at autumn traps	8,00
D. muscipula "SL 14", very large, flat, piranha teeth	10,00
D. muscipula "SL 15", extremely large traps, good grower, piranha teeth	10,00
D. muscipula "South West Giant", very large traps	12,00
D. muscipula "Space", mutant form	14,00
D. muscipula "Spider", all traps upright on very long petiols	9,00
D. muscipula "Spotty", dark red rosettes with red spots, can drop back to normal or red form !	12,00
D. muscipula "Stiletto",traps with fused teeth	20,00
D. muscipula "Switzerland Giant", very large traps, similar to Redline	10,00
D. muscipula "Tiger Fangs", flat growing, very big red traps with shark teeth	7,50
D. muscipula "Tiger Teeth", better clone than shark teeth	9,00
D. muscipula "Tim's Giant", big traps, orange / yellow plant	9,00
D. muscipula "Trichterfalle" (Funnel Trap), big plants available	8,00
D. muscipula "Triton", very unusual green fused traps,	12,00
D. muscipula "UK Sawtooth I", very good grower, big traps	8,00
D. muscipula "UK Sawtooth II", very good grower, big traps	8,00
D. muscipula "Umgekrempelt", traps are growing crumbled, inside out	16,00
D. muscipula "Unspotty", these are spottys which dropped back to normal, can be red green or between	8,00
D. muscipula "Wacky Trap", very special designed traps	10,00
D. muscipula "WB 4", green flat growing plants, very similar to clone Raptor	10,00
D. muscipula "Werewolf", upright growing plant, very nice, one of my favorites,	14,00
D. muscipula "Whale", interesting sawtooth form, medium sized plants	10,00

D. muscipula "X1 Carnipedia" selected form with dentata traps	8,00
D. muscipula "Yellow Fused Teeth, new clone" , better grower than the older clone, flat grower	9,00
D. muscipula var. heterophylla "Selection" , very big traps, this seems to be a true Anto Free form	7,00
D. muscipula var. heterophylla , flat grower, all green plant, good sized traps	7,00
D. muscipula , Typical form, hardy	5,00

Offer: 5 different labeled Dionaea clones of our choice, strong plants only 29,00

Offer: 5 different clones which produce giant traps only 36,00

Offer: 10 adult typical Dionaea plants only 34,00

please note, this offer is only valid for plants of our own choice !

We deliver fully grown plants, mostly of flowering size, if not otherwise mentioned !

Darlingtonia

D. californica , 7-8 cm	16,00
D. californica , 10-14 cm	22,00

Genlisea

Grow them under the same conditions as Utricularia and give them a plenty of light .

We deliver flowering size divisions .

Utricularia (terrestrial, epiphytic or aquatic species)

We deliver good sized divisions , grow them in a mix of peat and sand.

U. aff. longifolia , possibly a hybrid with <i>U. calycifida</i>	5,00
U. alpina , epiphytic, big white flowers	7,00
U. aureomaculata , Aparaman Tepui, yellow flowers with some red in them	8,00
U. australis , aquatic, hardy bog plant	5,00
U. biloba , blue flowers, grows very deep under water	6,00
U. biloba , Mooloolaba	7,00
U. biloba , South of Sidney	7,00
U. bisquamata "Big purple Flower" , many flowers, easy grower	5,00
U. bisquamata var. esterhuysenae	7,00
U. blanchetii "Violet" , Pico del Almas	5,00
U. calycifida "Asenah White" , long flower stalks, violet flower	7,00
U. calycifida "White" broad leaves, white flower	7,00
U. chrysantha , Kings Cascades, Regent River, yellow flowers on very tall stalks, very nice	7,00
U. chrysantha , yellow flowers on very tall stalks	6,00
U. cornuta , Canada, hardy	6,00
U. cornuta , yellow flowers, hardy !	6,00
U. dichotoma , blue flowers, hardy !	6,00
U. dichotoma , Chestnut, Big Flower	8,00
U. dichotoma , Falls Creek, blue flowers,	8,00
U. dichotoma , Purple Palette	8,00
U. dichotoma , Reedy Swamp	8,00
U. dichotoma , Southwest Nsw	8,00
U. flaccida , yellow flowers on tall scapes	6,00

U. fulva , Rockhole	9,00
U. lateriflora , Lake St. Claire	8,00
U. lateriflora , Mount Kompass	8,00
U. livida , white/pink flowers	5,00
U. livida Rwanda , Purple Flower	7,00
U. livida , Lemon Flower	8,00
U. livida , Marojeli	8,00
U. livida , Merrivale	8,00
U. livida , Mkambati	8,00
U. minutissima , G. Tahan , many violet flowers	6,00
U. monanthos	8,00
U. monanthos , Hartz Mountains	8,00
U. monanthos , Nive River	8,00
U. nana , yellow flowers, brown leaves	8,00
U. novae – zealandiae , similar to dichotoma, short inflorescence	8,00
U. parthenopipes , white flower	7,00
U. paulinae	8,00
U. paulinae , Whalepole	10,00
U. praelonga , yellow flowers, half aquatic	5,00
U. prehensilis , big yellow flowers	5,00
U. prehensilis , Mkambati, yellow flowers	7,00
U. pubescens , peltate leaves ,	8,00
U. quelchii , Ilu tepui, beautiful Orange Flowers	30,00
U. spec. Kerala , blue flowers	8,00
U. spec. Zimbabwe	8,00
U. steyermarkii , Auyan Tepui	10,00
U. subulata , yellow flowers	3,50
U. tricolor	6,00
U. tridentata , purple flowers	6,00
U. uniflora	6,00
U. uniflora "Snow in Summer" , nearly white flower	8,00
U. uniflora, L- type , bright pink flower	8,00
U. uniflora , Lismore, Nsw	8,00
U. uniflora , Reflex Lower Corolla	8,00
U. x cornigera x nelumbifolia , very big leaves, long flowerstalks	12,00
U. x nelumbifolia x reniformis , masses of flowers, on tall scapes, flowers all over the year	12,00
U. x nephrophylla x geminiloba , big white flowers on long scapes, nice leaves	10,00

Unless we try to grow them clean, it is possible that smaller species are sometimes mixed with **U. subulata var. cleistogama** !

Drosera	
D. adelae	6,00
D. anglica , Europe, hardy	8,00
D. binata	6,00
D. binata "Marston Dragon"	8,00
D. binata var. dichotoma f. pedata (Giant Form)	8,00
D. binata var. multifida	6,00
D. capensis	10,00
D. capensis "Baines Kloof" , forms stems up to 30 cm ,very unusual	10,00
D. capensis "Compact Form" , very slow, small growing plants	8,00
D. capensis "Giant" , 30 cm, forms stems with very long leaves	10,00
D. capensis "Minor" , my smallest clone of capensis, grows very slow	10,00
D. capensis "Montague Pass" , stem forming upto 30 cm	10,00

D. filiformis "All Red" , red leaves, not very hardy	6,00
D. filiformis "White Flower" , long pale leaves	8,00
D. filiformis var. filiformis "Florida Giant" , very long leaves	8,00
D. filiformis var. filiformis , hardy	6,00
D. filiformis var. tracyi , very long green leaves	9,00
D. graomogolensis , gets really large, rare	10,00
D. intermedia , all green plant, USA	8,00
D. intermedia , Europe, hardy	6,00
D. rotundifolia , plant clump, hardy	6,00
D. x Andromeda , tropical hybrid by Kamil Pasek	10,00
D. x California Sunset	8,00

Brocchinia and Catopsis

B. reducta , 12-15 cm	16,00
------------------------------	-------

Cephalotus

C. follicularis , adult pitchers, very nice plants potted in 8,5 pots	19,00
C. follicularis, ex Botanical Garden Wilhelma (and BG Mainz, same clone) for me the best Cephi clone, big and colorfull ! Good sized plants in stock 8-10 cm diameter	38,00
C. follicularis, ex Jens Brettschneider dark colored, good grower, 6-8 cm diameter	28,00
C. follicularis, ex Palmengarten (Piepenbrinks Unzerstörbarer) dark colored, slow but steady growing clone. 6-8 cm diameter	28,00
C. follicularis, ex Peter Harbarth dark colored with big pitchers, similar to BG Wilhelma clone 6-8cm diameter	38,00
C. follicularis , small plant clumps around 4 cm	10,00
C. follicularis, very big xxl plants ! Sent potted in 12cm pots and more than full !	29,00

Ant plants of different genus

Growing these interesting plants is easy under warm conditions. Fertilize regularly and do not grow them too wet (no ants necessary ;-)))

Hydnophytum (Ant tuber)

Flat or elongated tubers growing epiphytic in the nature, red fruits, small, a bit succulent leaves

Hyd. formicarum , size ca. 10 cm, tubers up to 25 cm possible	9,00
Hyd. formicarum , size ca. 15-20 cm, tubers up to 25 cm possible	12,00
Hyd. moseleyanum , size ca. 10 cm, produces very big tubers	10,00
Hyd. puffii (perangustum) size 10-14 cm, ex Hyd. spec. Needle Leaf	15,00
Hyd. simplex , size ca 30 cm, triangular tuber	16,00
Hyd. simplex , size ca. 15 cm, triangular tuber	10,00
Hydnophytum ramispinum, Doormans Top, 10-12 cm very spiny tuber, small leaves	30,00
Hydnophytum ramispinum, Doormans Top, 20-30 cm very spiny tuber, small leaves	45,00

Myrmecodia and Myrmephytum (Ant tuber)

Bizzar looking, mostly spiny tubers, white flowers and red fruits coming directly from the stem

Myrmecodia echinata , 6-8 cm plants, round tubers	12,00
Myrmecodia beccari, 10-12 cm	12,00
Myrmecodia tuberosa, ca. 10-12 cm plants, roundish or elongated tubers	12,00
Myrmecodia tuberosa, ca. 15-18 cm plants, roundish or elongated tubers	16,00
Myrmephytum beccarii, Phillipines, ca. 10-14 cm, small seedgrown plants	Summer 19 22,00

Lecanopteris (Ant fern)

Highly interesting, very unusual looking tropical ferns, which are inhabited by ants in the nature. We send nice strong divisions from our stock plants.

Lec. aff. lomarioides, similar to the species, but clearly different	Summer 19 35,00
Lec. carnosa, rhizomes with little antennas	20,00
Lec. celebica, very fat green/black rhizomes, long leaves	18,00
Lec. crustacea, small creeping rhizome	24,00
Lec. curtisii, waxy blue shining rhizomes	25,00
Lec. darnaedii, big spiny rhizome	Summer 19 28,00
Lec. holttumii, green hairy rhizome, highland plant	25,00
Lec. lomarioides, upright growing rhizomes, only few long leaves	Summer 19 35,00
Lec. luzonensis, compact gnarled rhizomes	25,00
Lec. pumila, gnarled, green/black rhizomes, also for cold conditions	18,00
Lec. sinuosa, fingerlike rhizomes with undivided leaves, lowland plant	12,00

XI -plants, very big size, multicrown plants:

Lec. carnosa	28,00
Lec. holttumii, green hairy rhizome, highland plant	Summer 19 34,00
Lec. luzonensis, compact gnarled rhizome	34,00
Lec. sinuosa	Summer 19 23,00

Dischidia (Urne plant)

Nice plants for hanging baskets or terrariums, we send good sized unrooted cuttings, which do root immediatly (potted or mounted)

Disch. acutifolia, Malaysia	8,00
Disch. astephana, really nice red and blue flowers, hairy leaves which connect themselves on the ground	10,00
Disch. bengalensis, reduced terete leaves	8,00
Disch. cleistantha, ex Bot. Garden Nancy	8,00
Disch. cochleata, Borneo, rare species	15,00
Disch. collyris, round leaves which connect to the ground	8,00
Disch. hirsuta "Big form"	Summer 19 8,00
Disch. hirsuta, small heart shaped leaves	Summer 19 6,00
Disch. imbricata, big, waxy, grey round leaves, very nice species	12,00
Disch. livida, small species, purple flowers	Summer 19 6,00
Disch. major "Big Form", forms 10 cm long urnes, which are inhabited by ants in the wild	12,00

Disch. major "Intermediate sized urnes" , Phillipines, 5-7 cm urnes	12,00
Disch. major "Small Form" , Lundu (Borneo), urnes up to 5 cm	12,00
Disch. major "Small Form" , Sumatra, urnes up to 5 cm	12,00
Disch. nummulariifolia , very small leaves	6,00
Disch. oiantha (spec.Borneo) , round leaf with a white waxy surface	6,00
Disch. ovata , oval leaves with white veins	6,00
Disch. purpurea , ex bot. Garden Nancy	8,00
Disch. ruscifolia , small heart shaped leaves	6,00
Disch. spec. Alex	8,00
Disch. platyphylla, big round leaves , fantastic looking plant	15,00
Disch. spec. North Vietnam	10,00
Disch. spec. Snaily , pink flowers, half closed urnes, maybe a hybrid ?	8,00
Disch. spec. Thailand , small Reddish leaf	10,00
Disch. spec. Wilhelma	8,00
Dischidiopsis parasitica , elongated leaves	8,00
Offer: Sortiment of 5 diff. species (our choice)	28,00

Hoya (Wax flower)

Nice, tropical climbing plants, which produce very nice, fragrant, waxy flowers.

We send good sized, unrooted cuttings, which root immediatly after potting.

Hoya acicularis , reduced leaves, needle like leaves	8,00
Hoya buotii	8,00
Hoya calycina "Stargazer" pubescent leaves and big white /red flowers	Summer 19 18,00
Hoya caudata , big speckled leaves	12,00
Hoya chinhungensis	Summer 19 8,00
Hoya curtisii , very small plant with speckled leaves	6,00
Hoya darwinii , ant plant, from time to time leaves form little ant homes like balls, white/red flower	18,00
Hoya engleriana x chinhungensis	8,00
Hoya hasseltii , small elongated, speckled leaves	8,00
Hoya heuschkeliana , small species, pink flowers	8,00
Hoya imbricata , ant plant, round, patterned leaves, which mount themselves onto the ground (stunning plant), different clones available	16,00
Hoya incurvula	8,00
Hoya kentiana , very succulent leaves, green with red line	8,00
Hoya lacunosa , small species, white flowers	8,00
Hoya lithophytica	12,00
Hoya lockii , not really a climber, more a shrub, many white flowers	20,00
Hoya mappigera , very large sigle flowers with red centre	25,00
Hoya micrantha	8,00
Hoya mindorensis , ball like flowers	10,00
Hoya mirabilis	10,00
Hoya obovata , very large round leaves, red/white flowers	12,00
Hoya odettae , small leaves, yellow flowers	8,00
Hoya parasitica , medium sized species, white/red flowerballs, very nice	12,00
Hoya paziae , white flowers with red center	10,00
Hoya platycaulis	35,00
Hoya publicalyx	10,00
Hoya rotundifolia , roundish a bit pubescent leaves	12,00
Hoya salweenica	8,00
Hoya serpens , very small species, white flowers with some red	Summer 19 8,00
Hoya thompsonii , white flowers, strong fragrance	8,00

Hoya wallichii , very big, single white flowers with red centre	25,00
Hoya waymaniae , orange flowers	12,00
Offer: Sortiment of 5 different species (our choice)	only 28,00

Sauromatum (not carnivorous) (Araceae) and other species

Remusatia vivipara , Burma, grows epiphytic on trees	8,00
Typhonium giganteum var. giraldii	6,00

Orchids

Dracula Orchids, not carnivorous

Very unusual orchids for the cold greenhouse, the flowers are hanging down, and do look like little faces.
We do send out nice divided parts, with a minimum of 5 to 7 leaves (or more)

D. erythrochaetae	15,00
D. lotax , temperate grower	15,00
D. lotax , temperate grower, very small form	15,00
D. mopsus	15,00
D. sodiroi	15,00
D. venosa	15,00

Disa orchids

Disa racemosa	12,00
Disa x "Colette Cywes blush" , pink flower, good grower	10,00
Disa x "Rosy Face" , pink flowers, very good grower	10,00
Disa x May	12,00
Disa x Watsonii "Candy"	12,00
Disa x Watsonii Red	12,00
Disa x Watsonii , light pink flowers	12,00

Pleione

Pleione x Alisan Mt Fuji ,	12,00
Pleione x Barcena (formosana x precox)	9,00
Pleione x Erebus , deep pink flowers	6,50
Pleione x Kublai Khan	9,00
Pleione x Tongariro , easy grower	6,50
Pleione x Vesuvius , colorful flowers, good grower	6,50

available from October until April

Other orchids (mostly epiphytic)

Bulbophyllum gracillimum	15,00
---------------------------------	-------

Bulbophyllum taniophyllum	15,00
Coelogyne fimbriata	10,00
Cynorchis fastigiata , terrestrial, grows in nearly all conditions	8,00
Kefersteinia retanae , compact growth, white flowers	15,00
Liparis gibbosa , orange funny looking flowers	10,00
Ludisia discolor , green leaves wit golden nerves, natural form	12,00
Ludisia discolor , red leaf form, white flowers	10,00
Maxillaria sophronitis , beautiful orange flowers	12,00
Maxillaria variabilis , yellow flowers	12,00
Mediocalcar decorata , cool grower, little orange flowers	12,00
Pleurotallis allenii , deep red flowers with golden rim	14,00
Pleurotallis anthrax , white, spiderlike flowers	14,00
Pleurotallis bivalvis , big heart shaped leaves	25,00
Pleurotallis janettiae	14,00
Pleurotallis rowlei , small red flowers	14,00
Pleurothallis crocodiliceps , masses of white flowers	12,00
Pleurothallis hitchcockii , round succulent leaves , white flowers	16,00
Pleurothallis restepioides , long inflorescence carrying many red/ brown flowers	16,00
Pleurothallis viduata	16,00
Restrepia antennifera	12,00
Restrepia spec.	12,00
Scaphosepalum breve	14,00
Scaphosepalum grande	16,00
Offer: Sortiment of 5 diff. epiphytic species, optimal for terrarium growers	only 35,00

Different tropical plants for greenhouse or terrarium

These plants will be delivered as divisions, young plants or unrooted cuttings !

Aeschynanthus flavidus , new discovered species from Sarawak, the only Ae. with yellow flowers, unrooted cuttings	12,00
Aeschynanthus gracilis , small growing species with little red flowers, unrooted cuttings	12,00
Aeschynanthus spec. Mulu , pale green, round leaves	8,00
Aeschynanthus spec. , elongated leaves, red flower	8,00
Anthurium lilacinum , small growing plant with pink/lilac flowers	12,00
Begonia eleagnifolia var. schulzei , nice creeper, white flower, good for terrariums !	6,00
Begonia luzonensis , very nice leaf pattern	10,00
Begonia lyalii var. lyalii , Madagascar	12,00
Begonia microspermum, Africa , very nice leaf structure, orange flower	8,00
Begonia mildbraedii , red leaves	12,00
Begonia pavonina , blue shining leaves, Cameron Highlands	Summer 19 12,00
Begonia prismatoscapa , small species	8,00
Begonia quadriolata , green black leaf pattern	12,00
Begonia thelmae , creeper, brown / green leaves,	6,00
Ceropegia distincta var. haygarthii , climbing plant, fantastic flowers, unrooted cuttings	7,00
Chirita tamniana (Gesneriaceae) , white flower	5,00
Dracophyllum spec. stricta ?	5,00
Kalanchoe uniflora , epiphyth, hanging down, pink flowers	8,00
Lycopodium hamiltonii , ca 20-30 cm	15,00
Lycopodium phlegmaria , ca. 20-30 cm	12,00
Marcgravia spec 1 , green/reddish leaves	8,00
Medinilla sedifolia , small overhanging plant, with nice pink flowers (unrooted cuttings)	10,00
Monophyllaea spec. Borneo , only one very big leaf, plantclumps	Summer 19 8,00
Neoregelia ampullacea (Bromeliaceae) , small bromeliad, red-striped leaf	8,00

Neoregelia lilliputana (Bromeliaceae) , very small bromeliad	8,00
Pachycentria spec. , bigger than P. glauca, unrooted cuttings	10,00
Pachycentria glauca , ant plant, white flower, grows together with ant tubers, unrooted cuttings	8,00
Pachycentria succulenta , ant plant, big, a bit succulent leaves, red berries	16,00
Peapalanthus spec. Venezuela	8,00
Philodendron dubium , ant plant, nice creeper	6,00
Racinaea crispa , brown curly leaves	8,00
Racinaea crispa , green curly leaves	8,00
Rhododendron burtii , shining leaves, red hanging flowers	12,00
Rhododendron jasminiform , white flowers (unrooted cuttings)	12,00
Rhododendron javanicum ? , beautiful orange flowers (unrooted cuttings, easy to root)	8,00
Rhododendron javanicum , true form, beautiful yellow/orange flowers, (unrooted cuttings, easy to root)	12,00
Rhododendron spec G. Murud , red flowers maybe Rh. Pauciflorum (unrooted cuttings)	12,00
Rhododendron spec. 1 , Genting Highland, small grower, (unrooted cuttings, easy to root)	12,00
Rhododendron spec. 2 , Genting Highland, medium size, copper leaves, small red flowers (unrooted cuttings)	12,00
Rhododendron spec. Top of Merapi , small grower, little red flowers (unrooted cuttings, easy to root)	12,00
Rhododendron stapfianum , Gunung Trus Madi, Borneo, white flowers (rooted or unrooted cuttings)	12,00
Rhododendron stenophyllum x javanicum , needle leaves, nice orange flowers. (unrooted cuttings, very easy to root !)	8,00
Scilla peruviana , nice leave pattern, epiphytic lily	5,00
Selaginella erythropoda , dark red/purple leaves	15,00
Stylidium irenae , trigger plant, pink flower	8,00

Worsleya procera (Syn. Worsleya rayneri) - The blue Empress of Brazil

Worsleya procera , strong, potted divisions of our motherplant, 40 cm +	99,00
--	-------

Different tropical ferns

Belvisia spec. green leaf, Malaysia , long leaves with a little tail at the end	8,00
Belvisia spec. marmorated leaf , nice form coming from Malaysia	10,00
Bolbitis heteroclita , dark green creeping fern	10,00
Campyloneurum angustifolium , very long leaves	8,00
Crypsinopsis enervis (spec Sumatra 1) , very hard leaves, with beautiful pattern	18,00
Crypsinopsis platyphyllus , G. Murud, crown epiphyte in tall trees, young leaves have white crusty dots, later white spots	24,00
Crypsinus spec. Genting Highlands, long shiny leaves with nice pattern	24,00
Crypsinus spec. , Borneo, similar to Cry. trilobus, but bigger and more ended leaves	20,00
Crypsinus trilobus (Phymatopteris) , Lake Toba, Sumatra, extremely hard leaves, unusual, grows very slow this plant is in my collection for over 30 years now	24,00
Davallia fejeensis , Cameron Highlands	6,00
Davallia repens , Borneo, dwarf climbing fern, very rare	12,00
Davallia spec. Seychelles , grows bigger than D. repens	12,00
Davallia tyermanii , ex Botanical Garden Saarbrücken	12,00
Elaphoglossum blumeianum (spec. wavy/hairy leaves) , Borneo, Sabah, 1000 m	18,00
Elaphoglossum lamellatum, Ecuador, very narrow leaves, division	35,00
Elaphoglossum malayense (spec. Malaysia) , epiphytic species, glossy green leaves, medium sized grower	24,00
Elaphoglossum metallicum , metallic shining hard leaves, slow grower, big division from my motherplant	30,00
Elaphoglossum metallicum , seedlings, 10 -12 cm	12,00
Elaphoglossum peltatum closed leaves , very rare and hard to get species !	35,00
Elaphoglossum peltatum , fine leaf structure, very rare and unusual fern, only 5-7cm high leaves, creeping rhizome	25,00
Elaphoglossum peltatum , half closed leaf structure, very rare and unusual fern, creeping rhizome	35,00
Elaphoglossum wurdackii , tepui plant , iridescent shing leaves, very rare ! divisions	45,00
Fadenia hookeri , nice small fern, forms plantlets at every leaf end	8,00
Humata angustata , small creeping fern, rare	14,00

Humata heterophylla , dwarf fern with two completely different leaf types	8,00
Lemnapyllum spec.? Large leaf, climber, succulent leaves, maybe a Pyrrosia species	12,00
Lepisorus scolopendria , long sword fronds with quadrangular sori, Kinabalu region	14,00
Microgramma reptans , elongated leaves, fast grower, good terrarium plant	8,00
Microsorium superficiale , Malaysia/Borneo, grows lithophytic	Summer 19 10,00
Microsorium whiteheadii , Central Sumatra, hard leaved fern, grows lithophytic on limestone cliffs	12,00
Polypodium aureum , fantastic fern, gets really big, very strong rhizomes	6,00
Polypodium spec. Costa Rica , long leaves, forms long stolons	15,00
Polypodium spec. Crestate form , small growing species	10,00
Polypodium spec. , possibly longifolium, small growing species, narrow long leaves, Genting Highlands Malaysia	10,00
Pyrrosia abbreviata , ex Botanical Garden Nancy, creeper	10,00
Pyrrosia christi , Malaysia, Fraser Hill, beautiful leaf pattern, 2 different forms available	15,00
Pyrrosia hastata , half hardy fern coming from Japan	16,00
Pyrrosia lanceolata , long leaves, rhizome is climbing or hanging down	10,00
Pyrrosia lancifolia , ex Botanical Garden Leiden	10,00
Pyrrosia linearifolia „Urakoryu Jishi“ , Short Crestate hairy leaves, slow grower	28,00
Pyrrosia linearifolia , beautiful, elongated hairy leaves, slow grower	16,00
Pyrrosia lingua "Crestate form" , mutation of lingua with crestate leaves, different forms available	18,00
Pyrrosia lingua "Mutant Form" , leaves similar to the cultivar Monstrifera !	18,00
Pyrrosia lingua "Variegata" , 25 cm leaves with some yellow stripes, creeping rhizome	12,00
Pyrrosia lingua , cold grower, elongated leaves	12,00
Pyrrosia longifolia , very long, succulent, hard leaves up to 40 cm, collected on Sulawesi	16,00
Pyrrosia nummularifolia , Malaysia, elongated leaf form, rhizome creeping or climbing, stays small, good for terrariums	10,00
Pyrrosia nummularifolia , Malaysia, round leaf form, rhizome creeping or climbing, stays small, good for terrariums	10,00
Pyrrosia spec. ? , creeper, 25 cm long, hard, succulent leaves	10,00
Pyrrosia spec. Cameron Highlands, grey hairy a bit succulent leaves	12,00
Pyrrosia spec. Cameron Highlands, growing lithophytic on stones	10,00
Pyrrosia spec. Seychelles , creeper, grows on palms, pale green leaves	10,00
Pyrrosia spec. Tambunan road , creeper, grows lithophytic on stones, easy grower	8,00
Quercifilix zeylanica , dwarf fern	10,00
Selliguea feei (syn. Polypodium vulcanum) , Mount Merapi, grows on top of G. Merapi at 2.200 m, very hard leaves	15,00
Selliguea lima, Cameron Highlands , fingerlike fronds	15,00
Spec. Terengganu, Malaysia , very nice and unusual, tall sawtooth leaves up to 35 cm	18,00
Vittaria lineata, Sumatra , shoe string fern, fine, long, hanging leaves up to 1 m	10,00
Vittaria spec 1 , overhanging broad leaves	10,00
Vittaria spec. Seychelles , narrow dark green leaves	12,00

Tillandsia

T. usneoides	6,00
T. usneoides fine form	7,00
T. usneoides, curled leaves	7,00

Cyclamen

Most of these plants can be grown in the garden all over the year, good sized bulbs

Cycl. coum , hardy	6,00
Cycl. graecum , hardy if well protected	6,00
Cycl. graecum , very big plants	12,00
Cycl. hederifolium , hardy	12,00

normal size, flowering size bulbs of 4 to 6 cm in diameter, grown from seed

Hardy bog plants

Helonias bullata (swamp pink) , looks like an orchid in flower	10,00
Osmunda regalis (royal fern) , very big and showy plant	8,00
Rhododendron canadensis , pink flowering, intermediate sized shrub	10,00
Vaccinium oxycoccos (bog cranberry) , prostrate shrub with big fruits and very small leaves	6,00

Offer: Plant assortment

Sarracenia flava , 10 seedgrown plants, different forms mixed	only 60,00
Sarracenia flava , 5 seedgrown plants, different forms mixed	only 34,00
Sarracenia purpurea ssp. 5 plants, different forms mixed, labeled correctly	only 49,00
Sarracenia , 5 different species, our choice, labeled correctly	only 38,00
Dionaea , 5 different, labeled clones of our choice, strong plants	only 29,00
12 hardy bog plants : 2 x <i>S. flava</i> , 2 x <i>S. purpurea</i> , 2 x <i>Dr. rotundifolia</i> , 2 x <i>Dr. anglica</i> , 1x <i>Dr. filiformis</i> , 3 x <i>Dionaea</i> all in adult size. Ready for planting them outside.	only 69,00

All statements regarding hardyness and cultivation of all these plants are based on my own experience and on our climate conditions here in West Germany.

Shipping to countries inside the EU: How to order ?

No minimum order

Please send your inquiry via mail and we will check if all plants are available.

We will send a quotation with shipping costs together with our bank details IBAN and BIC Codes for the EU-payment.

Payment is also possible via paypal , please allow to add the fees to cover costs for this service.

After your payment, we will send out your plants as soon as possible.

We do usually add one or two extra plants to every order with more than three plants.

Shipping to countries outside the EU: How to order ?

No minimum order

It is the same way as shown above, but please check, if a Cites paper is necessary to import plants into your country !

Most countries do allow the import of plants only with a Phytosanitary Cert., if it shows that all plants are produced artifically (Japan, South Africa, USA and Thailand for example)

Only the real airmail costs are charged.

Phytosanitary certificate costs 20 ,-- (incl. CITES declaration)

Wholesale orders

If you are interested to buy plants in bigger amounts (5 or 10 of each), please inquire.

We usually offer big amounts of adult plants (mostly sarracenia and dionaea) over winter, in a special list. Minimum order is 100 plants.

If you are interested, we can send you the special list with wholesale prices.

This list is only valid from december to march, in the dormancy period of the plants !

All plants are sent bare root !

Seedlist

We also have an impressive seed list. All seeds are collected in our own collection and are mostly (open) hand pollinated. If you are interested, please ask at seed@carnivorsandmore.de

We only sell fresh seeds of the last growing season.

<p>The Carnivorsandmore Team Claudia + Christian (plants) and Sarah + Tim (seeds)</p>
